Thread: [\[CLOSED\] Nightmare - Programming & Product Development Sector - Nefarious](#)

Dredd - November 12, 2016, 7:16 am

"We are enlightenment to some, nightmare to others."

Nightmares Goal

Nightmare's goal is to promote quality in HF. This goal will be reached by a series of tutorials and help-desks that will be ran by Nightmare members. Both of these, have to be approved by the Nightmare leaders and be of a greater quality than any previous material. Experienced members are expected to assist the newer members in this goal.

Nightmare "Nefarious" Sector

Nightmares Nefarious Sector is operated and owned by myself ([Dredd](#)) we're are an entrepreneurial based sector which is focusing on product design and development. Our sectors mentality is 'what you put in, is what you get out' we are hard working and expect the same from you, if this sounds like you we look forward to reviewing your application.

What we're looking for (Any one of these skills will make you a valuable member to Nefarious)

- Product Designers and Developers (We're talking about real products not digital ones)
- Programmers/Coders (Some products that are developed will sometimes need software in conjunction with the product)
- Anyone with experience with PIC/Micro-controllers and/or PCB printing and fabrication.
- Good marketers.

Application Format

Code Age:

What makes you a good candidate for Nefarious?:

Do you have experience in any of the fields we're looking for?:

If (yes) to the above please elaborate:

Do you use Skype both text and VOIP?:

Eloquence - November 12, 2016, 7:17 am

Good luck to all applicants, we're looking forward to reviewing your applications and welcoming new members to our team!

BannedOffline - November 12, 2016, 7:25 am

Well since you've been Exiled I can't see you having a future in Nefarious ?

SIM-3100985 - November 12, 2016, 11:59 am

Age: 16

What makes you a good candidate for Nefarious?: You're looking for coders, I've been learning & coding C++ for almost 2 years soon.

Do you have experience in any of the fields we're looking for?: Yes

If (yes) to the above please elaborate: Coding / Programming.

Do you use Skype both text and VOIP?: Usually only text on Skype, but I've got a working microphone so that would not be a problem.

The GRim - November 12, 2016, 7:25 pm

Good luck with the recruitment.

Kyle1995 - November 12, 2016, 7:50 pm

Why would someone need to be skilled with PCB printing and fabrication? I may be incorrect, but that seems very redundant in todays market. I would think PCB design and optimization would be considered far before that.

But this is very cool, not what I expected. Good luck with it

B?ker - November 12, 2016, 7:51 pm

Age: 21

What makes you a good candidate for Nefarious?: I have been developing websites for a little over 4 years currently. I am currently working to become a full stack web developer to expand knowledge on the field I love so much. Besides that Nefarious is what I wanted to do exactly with a Group one day have a much of developers help the community! Either way Dredd you earned my respect.

Do you have experience in any of the fields we're looking for?: Yes, Product Development.

If (yes) to the above please elaborate: Web Development

Do you use Skype both text and VOIP?: Yes

Stashy - November 12, 2016, 7:52 pm

Age: 23

What makes you a good candidate for Nefarious?: I am a very good person.

Do you have experience in any of the fields we're looking for?: Yes.

If (yes) to the above please elaborate: I am a businessman.

Do you use Skype both text and VOIP?: Yes I do.

Ray Palmer - November 12, 2016, 7:58 pm

What makes you a good candidate for Nefarious?: I think I m honest , cool member

Do you have experience in any of the fields we're looking for?:Yes.

If (yes) to the above please elaborate:I am a Entrepreneur

Do you use Skype both text and VOIP?:I do use Discord but i can register on skype later

AzCh - November 12, 2016, 8:08 pm

Age: 17

What makes you a good candidate for Nefarious?:Well, you're looking for programmers, and I have been programming for years.

Do you have experience in any of the fields we're looking for?: Yes, programming.

If (yes) to the above please elaborate: As stated above, I have been programming for nearly 4 years. In terms of programming languages, I have the most experience in Java and I'm currently in the process of learning Python and C++.

Do you use Skype both text and VOIP?: Yup, can provide my Skype name upon request.

Dredd - November 13, 2016, 3:58 am

We have some pcb designers already and the printing and fabrication is more for creating concepts and betas, we pay for a company to print them if we decide to mass produce the product.

Kyle1995 - November 13, 2016, 4:46 am

(Nov 13, 2016 04:58 AM)Dredd Wrote: [\[CITE\]](#) We have some pcb designers already and the printing and fabrication is more for creating concepts and betas, we pay for a company to print them if we decide to mass produce the product.A fab on the team just for betas? You sound like you're talking from experience, and I'm definitely not, but it still seems overboard from my perspective.

Regardless very cool stuff man, I won't even both asking but I am very curious as to what the fuck kind of stuff you plan on producing lol

Dredd - November 13, 2016, 5:53 am

(Nov 13, 2016 05:46 AM)Involution Wrote: [\[CITE\]](#) A fab on the team just for betas? You sound like you're talking from experience, and I'm definitely not, but it still seems overboard from my perspective.

It's not a required skill tbh if you can do it and have the equipment it's a bonus, I personally can produce boards at home it would be nice if I found someone else with the same skill.

I have a range of product ideas but we're open to new ideas and are looking forward to finding other with similar interests and skill sets.

Age: 18

What makes you a good candidate for Nefarious?: I try my best to be polite, kind and helpful. I wish learn more of DIY.

Do you have experience in any of the fields we're looking for?: I have experience in microcontrollers, especially Arduino.

If (yes) to the above please elaborate: I love DIY. But I could not get into this hobby before because of some study related problems. I have been toying with the Arduino board for couple months now, and I seem to get a hang of it now. I'm moving on the more advanced projects.

Do you use Skype both text and VOIP?: Only text, not VoIP.

Onireves - November 13, 2016, 6:09 am

Age: 17

What makes you a good candidate for Nefarious?: I started to learn coding in 2009, participated in RoboCup Junior for 7 years and I'm always up for new challenges

Do you have experience in any of the fields we're looking for?: Yes

If (yes) to the above please elaborate: I have experience in programing and micro-controllers and basic eletronics

Do you use Skype both text and VOIP?: I can use anything needed, mainly I use Skype and Team Speak

Wireless Network - November 13, 2016, 9:35 am

Age: In PM

What makes you a good candidate for Nefarious?: I'm willing to learn and have some spare time

Do you have experience in any of the fields we're looking for?: Programming

If (yes) to the above please elaborate: I'm familiar with python, java and getting used to C# these days.

Do you use Skype both text and VOIP?: Only text, but can use anything if need.

444 - November 13, 2016, 9:08 pm

Age: 21

What makes you a good candidate for Nefarious?:

I'm skilled in PHP, CSS, HTML5, jQuery, and love Marketing

Do you have experience in any of the fields we're looking for?:

I believe you guys are looking for someone who enjoys to do Marketing and Programmers/Coders.

If (yes) to the above please elaborate:

Marketing has to be one of my favorite hobbies, when I get the chance I am usually marketing, trading, or coding a website. ?

Do you use Skype both text and VOIP?:

I use Skype Voice and Text, I do not use VOIP but that can change.

Thank you for this opportunity, good luck everyone.

Day Trader

Dredd - November 14, 2016, 2:30 am

Keep the applications coming guys I will do a sweep tomorrow and let people know if they've been successful or not.

Thanks,

Dredd.

Devsoft™ - November 14, 2016, 6:59 am

Hello! How is this Group? Still Active, frequent events, generous free stuff to each other or help? ^^

Dredd - November 14, 2016, 8:04 am

(Nov 14, 2016 07:59 AM)WingTsun™ Wrote: [\[CITE\]](#) Hello! How is this Group? Still Active, frequent events, generous free stuff to each other or help? ^^

Those chosen will get access to our private resources and will get access to sector based projects ?

Marwix - November 14, 2016, 8:42 am

Age:

18 years old

What makes you a good candidate for Nefarious?:

The reason why you guys should choose me is because I'm active, helpful, and experienced in the programming sector.

I think my highly analytical mind-set and ability to work quickly makes me a great fit for your group. This is something that I've shown during [freelancing](#), helping people on the forum and some other work experiences irl.

You could pretty much say that I'm a diligent and highly confident user with a history of success in mind.

Do you have experience in any of the fields we're looking for?:

Yes.

.NET/Native development and math engineering is the field I'm active in at the moment.

I have been working with projects and created tons of products both for educational and commercial purposes for a couple of years now.

What you guys are looking for is a programmer with proper tools and excellent knowledge in various programming languages. I'm that guy.

Do you use Skype both text and VOIP?:

I use both Skype and VOIP. I prefer talking to people rather than having a chat with someone, but both are preferred.

Skype: tsukikohf

Dredd - November 14, 2016, 6:30 pm

Couple of good applications now keep your eyes peeled for the first round of invites.

captn_nemo - November 14, 2016, 11:08 pm

Age:

22

What makes you a good candidate for Nefarious?:

I'm a good guy ?

i like do help people with technically problems and i'm a fun guy talk to.

Do you have experience in any of the fields we're looking for?:

Yes i'm a full time web developer and web designer.

If (yes) to the above please elaborate:

Coding in: HTML, CSS, JS, NodeJS, C, Objective-C, Java, Python, Ruby, PHP.

Designing: Websites, Logos, PDF's.

Do you use Skype both text and VOIP?:
I don't really like Skype but when i do i use Text and VOIP.

English is not my mother tongue, please excuse any errors on my part.

Pink-Tshirt - November 15, 2016, 6:06 am

Age:
24.

What makes you a good candidate for Nefarious?:
I'm motivated and looking to improve. Help, learn and transmit knowledge.

Do you have experience in any of the fields we're looking for?:
I did my study in communication and master photoshop since 5 years. I'm coding in C++ (4 months experience).

If (yes) to the above please elaborate:
I've designed products packaging, product design and product distribution for 2 companies.
I started to code in C++ in order to increase my inspiration and create things I cannot create in the real world.

Do you use Skype both text and VOIP?:
Yes, I use Skype.

JUSTIN - November 15, 2016, 5:22 pm

Age: 16
What makes you a good candidate for Nefarious?: Been working with general software development for years. Could help develop software/make contributions/exchange information with other members. I'm on almost all day, I'm very often readily available and I have a good amount of free time on my hands.
Do you have experience in any of the fields we're looking for?: Yes
If (yes) to the above please elaborate: Loads of experience with C#/VB/.NET Software development.
Do you use Skype both text and VOIP?: Yes

Kyle1995 - November 16, 2016, 12:23 am

Wasn't planning on applying since I don't have physical product experience, but this group looks very cool so I figured I'd give it a shot

Age: 19
What makes you a good candidate for Nefarious?: Like I said I don't have physical product development experience, but I do have a lot of experience in the above fields in general. Back when the eecs subforum was actually cool I was one of the most active users, I'm really experienced with mainstream mcu's and I've played around with others in the past. Raspi of course, got into analog theory as well and used to have a lot of fun with rtl-sdr's. I actually busted out an arduino and rfid module pretty recently for the first time in awhile to play around with my apartments locking security. Used to be pretty into electrical engineering, built quite a few tools and I really love digital logic theory. Not pragmatic to the extent where I can help develop most likely, but I'll understand completely every step of design and I know well beyond the fundamentals which I think would

certainly be helpful

Do you have experience in any of the fields we're looking for?: Coding for sure, systems level is weak but marketing is what I'm really applying for.

If (yes) to the above please elaborate: I run quite a few large social media assets, automate a lot of smaller ones. Own an llc and a lot of other side streams of income, including drop shipping which could moderately be counted as physical product sales. I'm great with automation and I'm in constant contact with a lot of people very similar. I code a lot of tools working with oauth and dev API's to speed up the process of automation. If you're looking for a marketer I'm very familiar with basically every field except blackhat SEO. Fluent in a few languages, overuse the fuck out of php and I don't plan on aiding any embedded system programming but I could certainly learn, it's fun.

Do you use Skype both text and VOIP?: Yes

Dredd - November 16, 2016, 11:20 am

First batch of recruits have been notified.

If you posted before this reply and wish to know why you haven't been accepted yet feel free to contact me I will give an honest answer ?

Sajuuk - November 17, 2016, 12:51 am

Age: 19

What makes you a good candidate for Nefarious?: I might still be a student, but I have developed and sold products myself, specifically within the past two years.

Do you have experience in any of the fields we're looking for?: Yes? Why is this even here? If I'm applying I have to meet the requirements. If I didn't, my application would be voided and I would just benefit from the one post added to my post count.

If (yes) to the above please elaborate: Back in 2014 I designed a webpage editor and sold it for five dollars per pop. However I did not secure anything so even though it was closed-source I'm sure it has been spread around the net since then. I sold 86 copies without any extra fees (implied taxes, transaction fees, etc) but five dollars per purchase was a goldmine for me because I only spent around six hours coding the entire program (including coffee breaks and two trips to Subway because we were higher than a bitch that night).

The editor itself supported the base elements of a webpage (images, hyperlinks, etc) and in the last hour of coding it I did implement text formatting to make the font editable within the menu. Not much I can describe past that. It was a rather simple editor.

Do you use Skype both text and VOIP?: I haven't used Skype in years.

Other Contributions: Made some important edits to a user's guide in the Coding section:

<https://hackforums.net/showthread.php?tid=5466659&pid=53133322#pid53133322>

I assume knowing how to speak proper English is a requirement. That is my demonstration.

Xalence - November 17, 2016, 12:58 am

Age:

28

What makes you a good candidate for Nefarious?:

I am interested in technology and the design of products. I am excited about the future and wish to be someone at the forefront of the shift in technology. Product design is set to become more and more crucial and it is something I wish to dedicate time to. I am particularly interested in learning

more about systems such as Arduino and their potential applications to real world problems.

Do you have experience in any of the fields we're looking for?:

I want to be a part of the group to immerse myself in discussions and find out more information to enhance my projects and improve my knowledge of product design. I strive to innovate and improve constantly and would value being a part of such a community.

Do you use Skype both text and VOIP?:

I prefer not to talk via Skype or VOIP but messaging is fine.

Thank you.

Dredd - November 17, 2016, 3:27 am

Some good applications keep em coming ?

Sajuuk - November 17, 2016, 3:54 am

(Nov 17, 2016 04:27 AM)Dredd Wrote: [\[CITE\]](#) Some good applications keep em coming ?

Are we allowed to inquire about what kind of project positions we will be given? Rather, the ones that are planned to be available when a project does come up?

Egregious Jr. - November 17, 2016, 4:07 am

Age: 16

What makes you a good candidate for Nefarious?: I'm a friendly guy who is really dedicated to something when I'm motivated. It sounds like you want programming, and I'll explain my skills regarding this below.

Do you have experience in any of the fields we're looking for?: I know VB.NET programming a fair bit, which would fall under the programming category.

If (yes) to the above please elaborate: I am coding several types of programs and selling them on HF as well as off-site. While I am not an expert, I am learning incredibly quickly and I have made immense progress in a short amount of time.

Programs I've made/am making:

- SuperChecker - Username checker for websites, sold ownership a few days ago.
- MassMailer - A software to send mass mails to people.
- Email Bomber - Not going to be selling on HF for obvious reasons.
- SMS Bomber - Currently under construction.

Do you use Skype both text and VOIP?: I do.

Thank you for reading my application!

Dredd - November 17, 2016, 7:55 am

(Nov 17, 2016 04:54 AM)Sajuuk Wrote: [\[CITE\]](#) Are we allowed to inquire about what kind of project positions we will be given? Rather, the ones that are planned to be available when a project does come up?

Sure people aren't really set projects either it's more of a if you want to get involved you can situation. The more you put in the more you get out ?

Sajuuk - November 17, 2016, 3:24 pm

Hi, my name is Chris and my online alias is Ariana. I am twenty four years old and currently have a job, but I tend to have a lot of spare time as it's a on the move job. I've been on this site for around four days and I have accumulated a lot of friends, people who have helped me and who I've helped financially. Some names go by LastSession, Rubixa, N0ysa, Syme and a few more. I have currently made my own email bomber and leaked it for people's personal use and plenty of other things that are beneficial for cracking and getting accounts - not to mention my three giveaways hosted today. I treat people the way I wish to be treated and I have respect for people who act maturely, I also enjoy socialising and helping people and on their day. Being apart of your group would make me very happy and most probably make me a better person as a whole, I'd love to meet people and engage in activities together. I honestly hope you consider me for your group.

Denied from this sector ?
Whatever. I tried my best, that's all that counts.

Weco - November 21, 2016, 12:21 pm

Age: 16

What makes you a good candidate for Nefarious?: I really love coding. I would consider it as my hobby. I code because I like the coding itself, not because I make money with it (I pretty much suck at marketing). I nearly always need new project ideas and I would love to work together in a group on projects. I now develop Software since ~2 years, mainly in Java.

Do you have experience in any of the fields we're looking for?: Yes.

If (yes) to the above please elaborate: I am experienced in Software development. I would consider myself currently really good in Java. I have at least basic understanding of nearly every popular programming language and already created many projects.

Do you use Skype both text and VOIP?: Yes, but I prefer text. I can listen on Skype, but I am not a big fan of talking on VOIP.

Thanks for reading my application.

(Nov 21, 2016 12:26 PM)Ariana Wrote: [\[CITE\]](#) Whatever. I tried my best, that's all that counts.If your best is copy & paste than I don't want to see your worst.

Quackles - November 22, 2016, 5:14 am

Age: 17

What makes you a good candidate for Nefarious?:

Quote:I don't think specifically I'm a good candidate, but I think overall I could potentially be a good candidate which would be worth taking a shot with; I want to learn things and I'm deeply interested and invested in being educated in the fields you specifically are looking for.

I mean when there's an issue I'm always dedicated in finding an solution to it.

Do you have experience in any of the fields we're looking for?:

Quote:In all honesty; no. This being due to the fact my key reason for applying and wanting to be apart of the group is to learn more regarding programming and coding, I've been deeply interested in these specific things for some time and what better than to have a group full of those who have knowledge in these two areas; I'll be in it for the education and learning from you guys and the projects you may/will be working on.

If (yes) to the above please elaborate:

Quote:

Do you use Skype both text and VOIP?:

Quote:I use Skype for business related things such as when I'm selling something, but for conversation; no, I tend to keep Skype for business reasons only as it's easier to dedicate myself to something via focusing on being on the specific thing it's based on.

webdev77 - November 22, 2016, 5:43 pm

Can I get some more info on this line item:

- Anyone with experience with PIC/Micro-controllers and/or PCB printing and fabrication.

I have experience in PCB design with PICs and I'm curious as to what the intentions are with this.

What makes you a good candidate for Nefarious?: python, web dev, native c through sharpdev

Computer science major ,

Do you have experience in any of the fields we're looking for?:Yes.

If (yes) to the above please elaborate:I am professional student developer and internet security enthusiast ;) if you know what I mean

Do you use Skype both text and VOIP?:skype eh out grown skype, ;) xmpp + secure + voip, but will use skype on occasion

Prudent - November 23, 2016, 3:48 am

Age: PM.

What makes you a good candidate for Nefarious?: I'm dedicated and active member, and I'm experienced in some of the fields you are looking for.

Do you have experience in any of the fields we're looking for?: Yes I do.

If (yes) to the above please elaborate: Product Designing, and Marketing.

Do you use Skype both text and VOIP?: Yes.

(Nov 22, 2016 06:43 PM)webdev77 Wrote: [\[CITE\]](#) Can I get some more info on this line item:

- Anyone with experience with PIC/Micro-controllers and/or PCB printing and fabrication.

I have experience in PCB design with PICs and I'm curious as to what the intentions are with this. I'm want to create a group of software and hardware hackers and sometimes to prototype or develop bits of hardware we need custom PCBs designed and/or fabricated.

What makes you a good candidate for Nefarious?: I am a coder and software developer, doing computer science major (including theoretical computer science).

Do you have experience in any of the fields we're looking for?: As mentioned in the previous question; I can code in several languages (deskstop as well as web).

If (yes) to the above please elaborate: I'm running a coding service:

<https://hackforums.net/showthread.php?tid=5222190> which has several vouches. You can also find the coding languages I use in the thread linked.

Do you use Skype both text and VOIP?: I do, I can also use Discord.

JUSTIN - November 25, 2016, 12:08 pm

Re-applying because I want to be in here somewhat badly.

Age: 16

What makes you a good candidate for Nefarious?:Been working with general software development for years. Could help develop software/make contributions/exchange information with other members. I'm on almost all day, I'm very often readily available and I have a good amount of free time on my hands. Have already applied but I was denied, but since then I've gotten a bit more rep and I'm now L33T. I plan on posting a lot more aswell, really hoping to get in this group.

Do you have experience in any of the fields we're looking for?: Yes

If (yes) to the above please elaborate: Loads of experience with C#/VB/.NET Software development.

Do you use Skype both text and VOIP?: Yes

Brotherhood. - November 25, 2016, 12:18 pm

Age: 17

What makes you a good candidate for Nefarious?: I'm very honest, polite, friendly, funny and knowledgeable and very friendly. I can market very well and have very good customer service / advertising skills.

Do you have experience in any of the fields we're looking for?: Yes, I do a lot of customer service, here on HF, I'm extremely active and have insanely fast replies.

If (yes) to the above please elaborate: ^^ I'm always willing to help users out, sort their problems and have nice friendly conversations :)

Do you use Skype both text and VOIP?: Yes, I use skype very frequently.

Age: 19

What makes you a good candidate for Nefarious?: Going to college for Electrical Engineering. I can 3d model and rapid prototype.

Do you have experience in any of the fields we're looking for?: Yes, sort of.

If (yes) to the above please elaborate: For my engineering communications class I was given a "client" (the physics professor) and the "client" gave me a problem/item to design and create. I created the item he wanted me to create and he uses the item fairly regularly in his labs (The item being a bumper for an air track). TL;DR - I can make or design a product from scratch.

Do you use Skype both text and VOIP?: Only text.

Dredd - November 30, 2016, 3:38 pm

Recruitment is still open,

If you didn't get in and wish to know why don't hesitate to PM me.
