Thread: [Gmail / Hotmail](#)

ImNotAPro - November 14, 2016, 1:02 pm

Im in need of bypassing the security / phone / email verification on some email accounts. Is there any possible way ? Because i already tried logging into them wouldnt that already flag the security? And the only way would be to have the phone / email / security question to get into it ?

Please help will pay if thats what it comes down to.

OfficialTwistR - November 14, 2016, 1:04 pm

You cant really avoid the verification unless you know the person very well. I know for outlook accounts if you know the persons D.O.B and their first and last name you can get the password reset pretty easy.

ImNotAPro - November 14, 2016, 1:05 pm

official , do you have skype or discord? Please give me it so we can talk.

Also, how does that work i mean i can get it easily but ho would that work? To recover the account by emailing hotmail ?

OfficialTwistR - November 14, 2016, 1:06 pm

Send me a PM and i will link you a place to talk to me. I only use Riseup Pads.

ImNotAPro - November 14, 2016, 1:08 pm

My Pm's are dissabled atm , cant you talk on skype or discord?

OfficialTwistR - November 14, 2016, 1:09 pm

No i dont have skype or discord. If i send you a PM do you still receive it?

Malicious Intent - November 14, 2016, 1:10 pm

You most likely already flagged the security by trying to login from unknown IP and/or device/OS. There is no easy way of doing it. The only one i can think of is infecting the owner of the account and using their PC/laptop as a proxy to connect, one can also steal cookies and use them to authenticate.

OfficialTwistR - November 14, 2016, 1:11 pm

Stealing cookies is not the easiest as most sites are HTTPS. You would have to force a HTTP connection on order to sniff cookies.

hey you pmed me but i can't pm i'm new, care if we talk through skype?? thanks

ImNotAPro - November 14, 2016, 2:13 pm

NO i cant send pm's What do you mean by stealing cookies though?

Faith Connors - November 14, 2016, 2:34 pm

Holy fuck there is literally not a single person with positive rep in this thread. All red on the right side.

ImNotAPro - November 14, 2016, 2:39 pm

well i can see you just want some post count :p

Lifeyz - November 14, 2016, 2:44 pm

Reverse proxy the IP before logging in to not trigger the security.

This requires access to their system as far as I know though, but shouldn't be a problem unless your cracked the password?

ImNotAPro - November 14, 2016, 3:20 pm

Yea im not ratting anybody lol :p

cybernewbie - November 14, 2016, 4:02 pm

i am having the same problem - i know the password however i get a hotmail verification pop up everytime !
