Thread: [\[OFFICIAL\] Fusion Recruitment](#)

Divined - November 14, 2016, 2:53 pm

This is our second recruitment. In it, we're searching for avid gamers for both consoles as well as PC. Our members should not only wish to interact with others in discussion and debate scenarios, but also should stay actively in touch with their fellow members whilst playing online. Our application does not have difficult requirements, nor does it bar non-upgraded members from applying. Our general information thread can be found [here](#), and our roadmap for the future can be found [here](#).

Please do not PM leaders to check the status of your application. Once applications for this first wave of recruits are closed, a post will be made stating such, however the thread will remain open, as the second wave will be added shortly after the first. Please keep this thread to just applications, any questions/queries/concerns can be posted on the general information thread.

Please use the below format for your application, or create your own - however all applications must answer the above questions.

```

If there is any other information you wish to add to your application, you may feel free to do so. Our group currently has 198 members, 160-170 of which will be kicked for failing to respond to our activity check. Thank you, and good luck to all applicants.

Tell us a little about yourself: My name is Horizon. I have been gaming ever since I was a little kid on my Playstation 1. I am now 20 years old, and continue to play a variety of games, primarily on my Xbox One. I've always been mad on FPS games, and occasionally play racing games. I used to work in marketing and graphic design which I also find of interest.

Current Favourite Games: Call of Duty Modern Warfare Remastered without a doubt.

Currently Played Multiplayer Games: I have played all CoDs since Call of Duty 3. I also play the Forza Horizon 3 game after previously playing all of the franchise's games since FM2.

Throwback Favourites: Runescape was one of my classic childhood memories. Call of Duty 4 was another massive part of my gaming life, and it has now been refreshed with an urgency of nostalgia with the latest release of MWR.

Why do you wish to join Fusion?

I believe I can bring a wealth of knowledge relating to Xbox Products as I am a serving member of the Xbox Ambassadors Program. I would also like to meet and team up with fellow individuals who have a mutual passion for gaming.

Thank you very much for the consideration. ?

Tell us a little about yourself: I have been called "he who cannot be beaten in Forza", which is obviously not true. Most of the people on XBL that call me that sound like they're under 15, so the credibility is somewhat unstable.

Current Favorite Games: All of the Forza series, namely the original Horizon, but also 2 and 3.

Currently Played Multiplayer Games: Haven't played online since August, but usually Horizon 2. Most of my multiplayer time is continuous, that as in hours upon hours of just shifting, throttling, and braking.

Throwback Favourites: The original Horizon. Best open-world racing game yet.

Why do you wish to join Fusion? To find out if I'm the only fan of the Forza series on this board. I'm a lonely mf.

What can you bring to Fusion? Virtually nothing going off of the group description.

Tell us a little about yourself:

I'm 18 years old and have been gaming ever since I was little. I know I know, lots of people mention this but I really have been. When I was in preschool, I remember never turning off my PS2 before going to school and having my parents yell at me for it. I even used to own a Dreamcast. Currently, I'm really into becoming good at competitive games if it's my style. Casual games are great for untilting me and blowing off steam as well. Right now, all my time is dedicated to gaming and will continue like so for a good while.

Current Favourite Games:

H1Z1, Battlerite, GTA 5, and Civ 5.

As for older games that are my favorites:

Gears of War series, Halo 3, Black Ops 2, and Need for Speed: Most Wanted (the older one).

Currently Played Multiplayer Games:

League of Legends, Counter Strike: Global Offensive, and Overwatch.

Throwback Favourites:

I used to rent a bunch of games when I was younger so I never really had a bunch of games that stuck with me, but two of them are Crash Bandicoot and Scooby Doo: Night of 100 Frights. That Scooby Doo game will always have a special place in my heart.

Why do you wish to join Fusion?

I don't think any other group on HF suits me more than Fusion. My life has always been gaming, and I'm looking to meet people who also are passionate about this hobby. I'd like to join in with discussions and meet new people. I'm also down for group events and stuff like that.

What can you bring to Fusion?

I think the biggest thing I can bring is my knowledge in games that I'm currently good at. I'm a top 4% player in League of Legends and have been SMFC in CS:GO. Other than that, I'm pretty active despite my post count, just need topics that are relative to me and I can talk all day. I'm also super willing to play with other members of the group.

Thanks for reading. =)

Why do you wish to join Fusion?

Because, it's the home for gamers here in HF. It's going to be an awesome place for a Gamer like me to stick around and play with many people together. I'd like to be an active member of the group. I've been having a good post activity in League of Legends section of HF as well.

What can you bring to Fusion?

I'm wishing to play with many gamers here on HF through Fusion because by then, they're all connected to a single group. Also, I'm willing to learn from pro gamers and also share my experience among others about any game if anyone is in need of tips.

About Me!

Gaming Platform [PC/Xbox/PS4/Other]:
PC and PS4.

Region of Residence [NA/EU/OCE/CN/Other]:
EU or UK to be more precise.

Tell us a little about yourself:

Well I would like to start off by introducing myself to everyone at Fusion. I'm known as Jon Snow., and I'm 18 years old and from the UK. Ever since I was a child, I have always had a passion for video games, whether it was playing Atari and SEGA for the first time at the age of 4 years old, or whether it was yesterday night when I was playing some BF1 with my friends. I've been through loads of consoles over the years, which include XBOX 360, XBOX ONE, PS3, PS4, Nintendo DS Lite and the Nintendo DSi XL. However, as I like to only keep the best of the best consoles, as mentioned above, I've stuck with PC and PS4. More about myself as a person, I am a enthusiastic individual who loves socialising with other people who have similar interests to myself, and in this case, Fusion would be the perfect place for me as it is a group built up of Gamers.

Current Favourite Games:

Battlefield 1 is probably top rn. Nothing else stands out really well at the moment for me :(

Currently Played Multiplayer Games:

I play a lot of Multiplayer games in comparison to campaign only games, because I enjoy sharing the fun experience with other gamers such as my friends and family. Some Multiplayer games which I currently love and am addicted to are Battlefield 1, Overwatch and Cod Remastered. However, even though I am only currently addicted to playing these three multiplayer games, I am easily influenced in to playing other games if I have other friends who play them too.

Throwback Favourites:

GTA: San Andreas, GTA: Vice City, Assassins Creed (All Ezio Games), All Uncharted Games, Super Mario Bros. (For Nintendo DS) and finally Legend of Zelda: Ocarina of Time (Nintendo 64 and 3DS). Probably have loads of other old favourite games but can't think of any more :(

Why do you wish to join Fusion?

I would love to join Fusion for a variety of reasons, but I'll try to keep it short and snappy so you don't get bored of reading. Firstly, I've been looking for a HF Group to join for a long time now, since I haven't really been active for the past few months, but I am trying to get back in to the forum game, and am looking for some sort of a "family" to join.

I feel that Fusion is the correct group to apply for, and I don't wish to apply to many groups, as I would like to keep my time and dedication to one, special group. I want to be able to share my fun and gaming experiences with other members of the group, and hopefully get together with lots of gamers and have "gaming nights" which would be a really cool and fun idea I believe.

What can you bring to Fusion?

In this section, I wasn't too sure what to originally write, but I know realise that Fusion isn't about just being constantly competitive only, it's about lots of gamers whom have similar interests having a

lot of fun together, who are also allowed to compete against each other for FUN. If I were to be accepted in to Fusion, I believe I would bring a lot of Fun and Happiness to the group, along side being able to help organise certain events, and if were ever to have a big competition within the group, perhaps I could donate some prizes to be given away. Overall, I may not have any special "skill sets" such as being a GFX Artist, or being able to help mod etc., however I believe I am a good gamer, alongside being a fun and enthusiastic person, who will make sure everyone in the group comes together and plays together.

I would like to finally also say to the group leaders, thank you for allowing me to apply to be a part of this group, even if I am not accepted, it's been fun creating my application and thinking of loads of nostalgic games I used to play.

Throwback Favourites: Modern Warfare series, Crysis, Timeshift, Assassins Creed (Ezio series)
Why do you wish to join Fusion? I love gaming, and it's always more fun to game in a group than on your own. Besides that, I'm trying to become "a part" of the HF community and get to know other members.

Current Favourite Games: I play a lot of WoT, I was super into Smite, and Star Craft, I have and have played CS:GO but never really got into competitive play. Due to the nature of my friend base IRL I don't have people to play online games with so I tend to just play alone and avoid online games. I am thinking about purshasing ESO and Black desert within the next few hours.

Currently Played Multiplayer Games: Smite, Star Craft, a little bit of CS:GO, and WoT

What can you bring to Fusion?

I can bring activity to this group because I know some games very good and I am very personal about them. In last 12 months I have average of 7,5 hours per day in Rust as I play it a lot and I run my server. I can provide some good articles and possibly even play with HF members.

Gaming Platform [PC/Xbox/PS4/Other]: I prefer to play on Xbox more than anything, but I do play pc as well.

Region of Residence [NA/EU/OCE/CN/Other]: Currently in NA.

Tell us a little about yourself: Well for starters, I really enjoy playing video games (more on xbox than pc, cause I have a lowend pc xD). I love to play sports as well. I used to play Football for 1 year and basketball for 2. Other than that, I just started to work with Python, and I'm just self teaching right now.

Current Favourite Games: I really enjoy all of the COD series up to bo2. I don't really like bo3, and iw. I also liked to play CS:GO before I got vac banned lol. I also used to play a lot of league before, and a lot of other steam games, but I've died down due to school and other real life related situations.

Currently Played Multiplayer Games: COD: WAW, COD:B02, Skate 3, Forza Horizon, Forza horizon 2.

Throwback Favourites: Throwback games? probably nascar 07 on the original Xbox, and of course, Forza Motorsport (the first one)

Why do you wish to join Fusion? Why do I want to join fusion? because I want to be able to talk to other fellow gamers. I really love communicating with other people whether it being about games, or just life in general. I'm a really mature person for my age (I'm 15) as well. I think that I'd be a great addition to your group as I do love to game a lot, and talk to others about games as well.

What can you bring to Fusion? To be completely honest, I'm not sure what I could bring to the group. I do have a great sense of humor sometimes, and I am really nice, and kind to other people. I love to interact and communicate with other people.

Tell us a little about yourself: Well, Ive been gaming for a while and I'm pretty good at what I do. I have no life because I ruined my future with school so here I am just trying to find some people to

interact with and have a good time with people. I'm at the age of 17 and I'm also the sports star they all talk about in articles and shit because of the talent I have(not even trying to brag). I dedicate myself to something when I put my mind to it and I'm the good sport sometimes but other then that I'm the savage in the group and would just say whatever I wanna say without hesitation.

Current Favourite Games: Battlefield 1, Rocket League, and MW Remastered

Currently Played Multiplayer Games: Rocket League and Battlefield 1

Throwback Favourites: Halo, MW2, and COD4

Why do you wish to join Fusion? As I said before I'm trying to find people to interact with and a society like this I think I'd fit right in and bring the good vibes I carry with me to Fusion. I've been on the search for a group or even individuals to interact with but I haven't had the best of luck yet so hopefully I can get lucky with this.

What can you bring to Fusion? The good vibes because every group needs good vibes and it makes the group bond more and get to be more comfortable around each other. Also the energy I carry its pretty weird to say but every time theres a weird silence or just convos feel dead then that's when I step in and bring my energy as well so it can also wear off onto the others in the convo and no longer be boring lol I've always had that.

Tell us a little about yourself:I am currently active duty military in the United States Marine Corps and have been on HF almost 6 years now. I have 2 years left in the service. At some point in time I will be deployed so I will have to take a leave of absence from here. I grew up on PC gaming (Runescape) and the SNES. I wasn't allowed an Xbox or anything until I bought one myself at the age of 14. I got into wii and Xbox modding at the time and made some good money with xp and modded lobbies.

Current Favourite Games: I currently only play Battlefield series, Rainbow Seige 6, and The Division. Unlike a lot of gamers I only play a few different games.

Currently Played Multiplayer Games: I currently play Battlefield 1. Ranked top 1% for sniper rifle kills, top 2% for headshots, and top 1% for longest headshot.

Throwback Favourites: My personal favorites were/are Call of Duty WaW, Super Mario World for the SNES ;)

Why do you wish to join Fusion? I have yet to experience a group on Hack Forums and believe Fusion would be a great place to start and make many friends in the gaming and hacking world.

What can you bring to Fusion? High quality content, activity, and organize some events for games that are being played by a majority. Other than that, not much. I'm only good at gambling and jacking social media accounts. I am no coder or malware specialist. Gaming is what I am better at than all of those things.

Thank you for the opportunity to apply!
