Thread: [Scammed FireNice UID: 3126298 | \\$210](#)

B?ker - November 14, 2016, 4:23 pm

So like any monday I wanted to sell some AGC, so I hit my normal buys and anyone who showed interested, like I normally do first come first serve.

The Scammer = [FireNice](#)

Showed interest in my AGC over the weekend
Spoiler ([Click to View](#))

So I hit him up today, our skype convo.
Spoiler ([Click to View](#))

Proof its his Skype incase you know the normal ?
Spoiler ([Click to View](#))

This is proof from a scam report he opened.
<http://image.prntscr.com/image/dee87157d76c41d397c11ce5514bcac0.png>
<https://hackforums.net/showthread.php?tid=5292966>

Proof the AGC worked.
Spoiler ([Click to View](#))

This is when I received the AGC Gift Card.
Spoiler ([Click to View](#))

So in less than a minute the code went bad, I doubt it considering I sold \$360 AGC to another user moments later and he redeemed it no issue.

All I want is my \$210 Bitcoin like we agreed and we can go our separate ways :)

This is our conversation today so far..

LOL, to make amazon account you actually don't need to have email address, you can just write random one, so you can make it in 10 secounds and you could redeem it.

We had deal that I can buy card up to 200\$ not 300\$ from you and you just send me code o.O...

Once before you tryed to sell me code I told you i need 10-20 minutes to set everything, then you in same time sell code to other guy for 1% more money. And you didn't even told me first that... This

time maybe you done same and sell card to someone 3rd again and that person scam you or something, or you redeem it

Yeah that's not how things work bud. You clearly scammed me and owe me this money I'm sorry you can't comprehend that but it's ok like I said \$210 isn't much it's the point you are this poor to turn a profit. Good luck with any sale in the future!

MrDark Gave the code to FireNice, and FireNice was supposed to pay Mr Dark \$210 in Bitcoins. Adding onto this..

Instead of paying \$210 to MrDark, he decides to send the AGC to Dark Smiles without even asking if he'll buy the AGC.

Normal trade: Sell AGC -> Buyer => Buyer sends \$ -> Seller

This trade: Sell AGC -> Buyer -> arbitrages to 2nd buyer => 2nd buyer never confirmed and denies trade -> Buyer doesn't have money -> Code is now known by 2+ people -> Seller is scammed
