Making a thread sulking like this is not going to get anything solved. Provide some evidence and link

How do you get hacked twice, lol.

If you were hacked, Why haven't you changed your password yet? If I were hacked, I would change

my password instantly.

Sorry but you're a horrible liar.

Stashy - November 15, 2016, 8:12 am

since the scammer got "hacked" he should still be accountable for paying back op

it's his fault he didn't protect his account

testpen101 - November 15, 2016, 8:14 am

Gets hacked twice but never changed his password from the first time.

LOL.. Spits on your face Liar

Danny Khalifa - November 15, 2016, 8:15 am

Why you do even deal with someone who is refusing to use a middleman?

If he says his acc was hacked lol everything will be fine ? No need of paying me back? :p

You better pay me back my 75\$ Oresle you will be loosing your 6year old Ub3r Account and this will be a big loss for you ! And even you Negg repped me plus a friend of mine SAM when he try to ask the matter and negg repped too

And Cant belive that u got hacked twice (i didn belive though)

Prophett - November 15, 2016, 8:46 am

That's unfortunate. Always use a middleman. If they refuse, you know it is sketchy.

In that case since you got "hacked" and someone was scammed, you'll have to kiss your account goodbye. RIP

No worries we will inform Omniscient about this for you, You must be so busy still recovering from this 'hack'.

Quote:If any account is stolen or lost and then has Deal Disputes threads, scammer reputations, or Deal Dispute Database entries against the account it will be closed and marked as "lost/stolen scammer" and you will not be allowed to return to the community under any condition.

It isn't about being "too pussy", Read his previous negs calling him out to be a scammer - despite him having those OP still chose to deal with him. Rep is a waste of time and most of time when users themselves can't be bothered to review the feedback left on the seller/buyer.

"Last Login IP Change Date: 09-29-2016"

So he got "hacked" by the same "hacker" and after being "hacked" the first time he never changed his pw. Seems obvious scam.

Staff don't get involved in deal disputes. You should've done some research.

stupiidkevin - November 8, 2018, 5:19 pm

can't do research if i'm not a member to check his trusted scans. I went off of his contract system.

There is a deal dispute database and a search function.
