I received a vouch copy of OP's product and here is the review.

Alexa website rank checker ranks the website I recieved @ 887,185.

According to trafficestimate.com the website received 21,600 visitors over the past 30 days

On a side note, I did not do anything other than check these stats so I really have no idea of the quality of what was handed over.

I am not affiliated with the owner in any way. This is my honest unpaid and unbiased review. I added \$50 to the balance and since its BTC it tool \$15 in fees so id rather them use eth.

In the shells market, it took me a while to discover that the shell buy part was on the far right. I would put near the left.

I did buy 2 shells and both work well, even got a bitcoin blog and i'm happy to say i can do whats needed. I appreciate the website for being up and I hope these aforementioned problems get fixed.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,  
Stanley
