Thread: [\[Free Giveaway\] Nysta's The Business Specialists - Free Shopify Method](#)

Gluteus Maximus - November 15, 2016, 8:35 am

Since [Nysta](#) was a scammer and to make people aware about his other account: [Cambar](#)

Proof of him being a multi (Thanks to [Flexity](#)) : <https://hackforums.net/showthread.php?tid=5457308>

He was/is selling just the same eBook with different names each time.

You now know what a waste his eBooks are: <https://www.mediafire.com/?vz0wpj77r1k5v8b>

Enjoy! ?

The only individual who can object to this is Nysta, but he was closed.

Oh right.

Could you post a .txt document on another cloud sharing site or PM me, please? Getting a warning about the site being a phishing site and won't let me go further. Thanks
