Thread: [selling 2 copies only of private irc botnet | ddos L7 + L4 | Stable | FUD | C++](#)

Elli?t - November 15, 2016, 11:22 pm

I am selling 2 copies of this IRC botnet because I need money to rent EK
This is coded by me and only i use it.

Specifications

- Coded in C++
- Layer 4 + Layer 7 DDoS Attacks
- Small Bin Size (120kb)
- Stable
- Stealth Injection
- Start Up
 - FUD

Commands

- Download + Execute -> !download {url}
- Update -> !update {url}
- List Online Bots -> !online
- Very Basic Botkill -> !kill
- Stop All Attacks -> !stop
- Layer 4 Attacks:
 - UDP -> !udp {ip} {port} {socket} {threads} {time}
 - SYN -> !syn {ip} {port} {socket} {threads} {time}
- Layer 7 Attacks:
 - HTTP POST -> !http {url} {port} {threads} {time}
 - HTTP GET -> !http get {url} {port} {threads} {time} get (optional -- if included will get cookies)

Demo

I only have few bots but here is a video

[Video: <http://www.dailymotion.com/video/x52aobi>]

Price

\$250 BTC Only

I am Only selling 2 copies .

This would go in the SST section but it got closed, and im sure this isn't allowed to be sold on HF anymore.

its tested on

Windows XP SP3
Windows 7 Home x32/x64
Windows 8.1 x64
Windows 10 x64

and all functions working

Elli?t - November 19, 2016, 2:10 am

online , and still selling this

Elli?t - January 21, 2017, 4:56 pm

sold offsite closed thread
