people recommending Shigatsu ws Kimi no Uso. Screw it.

I'll watch a few episodes, and based on that I might continue watching or stop. I usually don't like romance genre but I'll give it a shot.

I know a lot of people don't like SOA but I personally thought it seemed good, I only watched around 13 episodes before forgetting about it for a long while.

My three would have to be Soul Eater, FMA Brotherhood and DragonBall Z. All three were great, I watched FMA:B and Soul Eater due to my crush and Dragonball Z was great to watch on whatever Nickelodeon channel had it on, though that was kai, later on I watched some of the original and a few movies of it.
