Thread: [Need AOL Email Access / Hacked](#)

SIM-3341619 - November 17, 2016, 11:09 am

I have an AOL account email that I need hacked.
the password may be in this db leak if anyone has it

"Neteller logo

Neteller: In May 2010, the e-wallet service known as Neteller suffered a data breach which exposed over 3.6M customers. The breach was not discovered until October 2015 and included names, email addresses, home addresses and account balances.

Compromised data: Account balances, Dates of birth, Email addresses, Genders, IP addresses, Names, Phone numbers, Physical addresses, Security questions and answers, Website activity"

If you can help me get access to it would mean A LOT!

Hello,

please feel free to send us a PM and we'll suggest you the best way.

Thank you
