Well, if you ever find yourself in the Cali area sometime feel free to hmu to smoke some dank kush lol

But anyways, here's my applications:

Name: Baba Yaga

Kush Kwalifications: Sold some dank freshman year of college to help pay for it and meet people (obviously :P). Ended up smoking most of my product though so didn't turn too much of a profit. Stopped selling afterwards seeing people getting busted and whatnot. Now I just enjoy it casually from time to time.

What Can I Bring to the Group: The best tutorial ever on how to roll a sick baseball joint (you know, fat tip skinny base lol). I can show off some of the weed I got idk really. This hasn't been the best application but I hope to chill and meet some chill people while feeling chill on the kush!

Hi, im applying for this group, my name is Julian and im 18 years old. Ive been smoking weed since I was 14. I live in The Netherlands. I used to smoke 2 grams a day when I was 15/16 but sadly thats no longer possible because I dont work that much..I would love to talk with other people about weed related stuff because my friends are anti weed and cant talk to them about it. I could help everyone out with a custom avatar/signature or thread design or whatever, since im a Graphic Designer. My favorite strains are Bubble Kush from Sky High and New York Diesel from 420cafe (Coffeeshops in The Netherlands)

I know i got 0 rep, and the account is new..but my older account was last active in 2014 and sadly got deleted..so had to make a new one and bam here i am

Happened to me a while ago, you gotta install windows again as you're probably missing a driver or it's broken.

Drug of Choice: Weed of course because I can smoke whenever I want without any side effects unlike other drugs like coke/amphs which make you feel like shit the next day. The after effect of weed makes me feel awesome as well, so I like everything about it basically.

Favorite Strain (If applicable): No fav strain, it all varies with whom I'm smoking and if I have work to do or I'm free all day.

If I smoke with my best friends in a closed place (room) we usually get sativa which makes us do the craziest shit and also the best jokes and conversations. Indica when I'm feeling very low and have to think about my life problems. As for specific strains, I like Amnesia because it has helped me forget a lot of bad memories and making me sooo careless which is awesome as well. Blue Dream and OG for doing my homework and house work in general.

Frequency: Used to be a daily smoker but I now smoke 1-2 times a week (sometimes more when my friends call me, I can't refuse them) because I have a lot of work to do. Studying too.  
Favorite Music to listen to baked: Cool and calm house music, trance etc.  
What can you contribute to the group: Help anyone in every way I can, share stories etc.  
Anything else: I love anything related to weed.

Favorite Strain (If applicable): Well I am from Australia so it's a bit harder to get onto specific strains but at the moment my bloke has told me that it is Afgan Kush.

Frequency: Erryday yknowit

Favorite Music to listen to baked: I listen to a variety of music while smoking, it ranges from mellow 80s music all the way to heavy death metal. At the moment I rather enjoy listening to drill music.

What can you contribute to the group: Just a chill guy who is easy to talk to and is always up for a chat. I can help local members find better buds. I am willing to discuss my acid experiences with everyone.

What threads can you contribute: nothing special atm

Anything else: I have been a full time smoker for 10 years and have been taking other drugs since the age of 18. I would love to join a group and finally one has appealed to me enough to apply. I intend on being an active member if chosen.
