Not sure if this is even possible lol

Can you post proof?

it is possible if:

1) he got win boosted and 1 of the accounts he was in lobby with got banned.
2) because those game will be reverted there is also a chance the recommendations given within that time span will be reversed 2.

Other then that the chances are slim to none.

This account got recently banned: <http://steamcommunity.com/id/zonerson1>

But shit happens sometimes, at least give him the opportunity to fix this before accusing.

Nope, I'm the only one who can boost that many commendations. And 0,07c for 1337 commends is cheap.
