Thread: [\[SHORT Free Method\] 30 bucks a day using Instagram](#)

Blablacar - November 19, 2016, 6:32 am

So I have been wandering out here for some time now and I want to make a contribution to the forum.

I have used Instagram in the past to make around 30 bucks a day income. Wouldn't say this is passive but more as in work 2 hours a day passive.

There may be numerous strategies that you may have utilized, however not all may have worked for you or most pessimistic scenario being, none might've.\. It was the same with me, yet a bud of mine (who was additionally profiting off the web) began to gloat big time about his income so I chose to do same technique over and over with a little bend until I made some \$\$\$ furthermore attempted a couple of various strategies over various ig accounts.

What's more, prepare to be blown away.

Make another Instagram Account in a niche you like, purchase likes, utilize follow/unfollow move to around 10K or 20K followers. Then trade Shoutouts with acc's as large as you in your specialty and get to 30-50k . At that point you'll begin getting shoutout requests for so charge them \$10-20/shoutout and in the event that you get 2 asks for a day, you can make in any event \$40 Scale up and you get even more.

Also you can burn if you know what this means (make money very short term but then income will suddenly stop). Haven't tested this myself but just came up with it. Feel free to tweak if you like: Make IG account, unfollow method then, purchase 10k ig followers and keep posting to around 7 photos. Now purchase likes and comments on your photos. Go around and contact different IG accounts if they like a shoutout. Charge them around 20 bucks or so saying you have a trending IG account and they need to take action NOW, before price goes up!

I have since moved on to bigger venues but sometimes I still get an IG shoutout request. Hope this helps you and comment below if you got questions or something else :).

I saw someone using this method. Beside selling shoutout, you can sell the IG Account too.

Thanks for sharing, but how do I find accounts to sell shoutouts to?

Just go around randomly looking for accounts or do I need a niche Insta?
