Thread: [LuminosityLink - litle message to owner](#)

The Equalizers - November 19, 2016, 6:59 pm

LuminosityLink afther last updated unistalled all my bots.Mate u cant do this and u better tell your customers what you doing as this is not accepted anymore.

If you want folow law then stop selling this like " RAT" and start selling it like team viewer ;)

Riyu - November 19, 2016, 7:01 pm

He can do that and I doubt he care's about your opinion so this thread was so useless.

if they're yours, and you're using LL legally, it shouldn't be hard to upload a new stub to your computers :)

Otherwise he can do that

u dont get point my friend.Nobody here break his tos soo he is not alowed to do shit if somebody is not braking his tos.

Message for user that says run it again.

Maybe i have 1200 rdps and its big work to run one by one. :)

Dont try to protect him.All his customers stoped using ll because it started act like "legal program. its shit program.

Do you actually blame the fucking guy? Like he made his money and now he's done and doesn't want to go to fucking jail

Stop being a fucking loser and accept the reality. Crying isn't going to change shit. If you're so fucking butthurt how about you make your own RAT so you don't have to make a NEW hf account and complain? You can control all the damn bots you want.

You didn't "break" his ToS.....my fucking ass. I can guarantee you don't own a single computer you infected.

moron

id ont hide this is me The Equalizer

and i had x4 times more rep then you have now soo stop acting like some hero. :)

U can say someone is loser.Omg kid.get the fuck off :)

I just want inform people to stop buying his shit and he shoud change his thread to - copying team viewer program lol :)

ALSO U SAINYG he made money and dont want go to jail..

He should think about that before start selling. When he didn't "make money" he was selling it like a rat and now he wants to get out with it. lol

NyQuil - November 19, 2016, 7:28 pm

the spelling here is educational, and I do believe all the rats here have updated their TOS to do this as they (I do believe) was forced to by the rules of HF.

Armada - November 19, 2016, 10:27 pm

Another one of these threads?

heh.

OP read the EULA you blindly agreed to. It is literally ALL there.

/End Thread

Forever hold your peace.

Hi m8! This is the harsh reality of paid RATs. There are some things you can do tho:
1st, ALWAYS use a free RAT such as Quasar or Njrat as a backup on your clients.
2nd, Don't complain or seek support from developers, the only thing you will get is a license termination for malicious usage.
