Thread: [\[RELEASE\] WebFuck3r - LFI AutoShell Upload & Scanner | SQLi ,RFI Scanner |Coded in PHP](#)

Chill Dill - November 20, 2016, 10:30 am

Hey HF,

I have developed a tool called WebFuck3r its for security exploiting and scanning coded in php.

Some of it functions:

LFI - AutoExploit Upload Shell (2 Methods) & Scanner

SQLi - Site Vulnerability Scanner

RFI - Auto Shell Uploader & Vulnerability Scanner

Not to bring you down or anything but even if this tool is working in kali linux you have the exact same type of tools that have way more options :/

Anyways, if you coded it yourself, congrats.

?

?Yes i coded it myself thanks , I know they are more advanced like this ,but i just coded a simple fast tool in php because i havent seen any php scanner for lfi,sql,rfi that auto uploads shell also

SnoWHAX - November 22, 2016, 6:51 am

Can i se this pro version?

chaqualot - November 22, 2016, 9:43 am

Hey could i have the pro version :) ?

Devsoft™ - November 22, 2016, 10:26 am

Could I have a copy of this one. I would really love to read the code of this one :)

Thank you, WingTsun™.

Thank you, WingTsun™.

The encrypted code is here for free > pastebin.com/u/Noname-Haxor but if you want the decrypted source so you can edit it and do what you want i give it to you for \$5 (WebFuck3r + WebDav AutoExploiter Source) coz i have worked hard on it

Charles101 - December 13, 2016, 12:26 pm

ok i need the 5\$ WebFuck3r + WebDav AutoExploiter Source but does it generate unlimited websites and hack them to upload the c99 or how i have to load the website.

thanks

advise

LOLZWHAT123 - December 13, 2016, 4:31 pm

looks good, thanks for the release OP :)

SIM-3270223 - December 29, 2016, 9:04 am

can i trust this script ? looks shadyyyyyy

Nicola Tesla - December 29, 2016, 10:50 am

This script looks good,trying to see if its backdoored or not

-zack- - November 24, 2018, 10:37 am

Be careful. the script is encoded.

Hidden content always has made be suspicious.
