Hi,

I'm looking for someone to get my website Adsense Approved in order to get a full verified Adsense account. PM me if you're able to do this, thanks!

What the issue though? Why can't you do it yourself? Like is your country banned or something?

It's the content of my website that isn't enough to get it verified.

I got my empty site approved. You must be violating one of the ToS's.
