NEW METHOD UPDATED!

Hey HF, My name is kooby and I'm 16 years old, I made a post about how my father spent \$1,000 of my bank account money without telling me and some people asked me to release my money making method knowing I'm so young and I got it so little time. So far I have made over \$20,000 this year just by doing this method!

I have been using a private method for awhile and I had a great experience on hackforums and want to give back. As I promised to some members I will be selling 3 copies of my BTC method.

Two vouch copies will be given to people I think are trusted. I also offer lifetime support so if you need help carrying this method after you have seen it I can show you exactly how it's done. Hopefully this will suffice for proof as they can test the method out. If you're interested in a vouch copy, please PM on HF.

What the method needs/has:

Guaranteed to receive 10x your investment

You need an investment of BTC [\$10 RECOMMENDED]

Support

No Work At All

No bullshit

What this method does not need/have:

Gambling

Working

Stealing

Carding

Fraud

Illegal Activity

Time needed to do method: 15 minutes

If the method does not work for you, I will refund you completely on request!

Prices/Copies:

First Copy - SOLD

[\$25] Second Copy - [CLICK TO PURCHASE](#)

[\$100] Third Copy

PLEASE DO NOT POST VOUCH BEGGING POSTS!

TOS/Info:

Do not leak.

If you have questions contacting me through PM is the best!

It's is exactly how it sounds your money will be multiplied by 10.
I'm a really nice guy and I will help you out any way I can. Thanks.

Extra Service:

If you don't want to pay for the method you can add me on Skype and I can do the method with your money for an extra as a profit for me and I will give you your money x 10.

I've been kindly given a vouch copy by OP to review. Thank you and good luck with the eBook.

All ratings are out of [*****]

Method [*****]

Damn. This method is good, and is actually super easy. It's amazing to think how something like this is not possible, but although OP does make a pretty big call to say "multiply x7" you do get a lot on your investment.

Yes there is a bit of investment upfront as you need to get your BTC multiplied but the method is super easy to follow and actually very easy to understand. It's worth your money to buy this eBook as the method is really good.

Design and Layout [****]

Straight to the point eBook. Incredibly simply designed and written, but that does not take away from the value of the contents. Inside, the eBook, the method that is transcribed is really good and impressive actually.

There is one picture, but well, with a method so simple, you don't really need anything else.

Value for Money [*****]

Yes. Yes. Yes.

If you have BTC to invest and to multiply, you can use this method to your advantage. There is a slight risk involved, but other than that, it should be fine. I think compared to many methods, this eBook is super simple to follow.

I would like to point out, as I said, there is some slight risk involved with this, nothing to do with gambling etc, but just be careful if you do buy this eBook.

Other than that, it's a really good quality method and I'm sure it will earn you money.

It's a fking shame that I can't do it since my country is not supported :(

This will definitely make you some money, but shit... I'm sad now... lol..

Do not hesitate to buy this, it will work in US and most of EU countrys.

(Nov 22, 2016 12:27 PM)Hayley Wrote: [\[CITE\]](#) Hi, I have been given a vouch copy and these are my first thoughts.

This is crazy. But it might work.

I have never heard or seen anything about this and am still in the process of testing it out.
I'm going with a medium investment of around 0.1 BTC and will see if it works and will post back my results on here.
I have no idea how and why it should work though.
It takes some time to actually process and get it to convert BTC but we'll see and I'll be sure to post here with my results in a day I'm guessing.

Riyu - November 20, 2016, 1:42 pm

How was the first copy sold in one minute?

OT: I'll take that vouch copy btw

Nalright - November 20, 2016, 1:44 pm

If you deem me worthy enough I would be willing to review this.

Windows 98 - November 20, 2016, 1:45 pm

I might have interest in this, but if you can 7x your investment in 15 minutes, why aren't you a billionaire?

Tor - November 20, 2016, 1:45 pm

Do you have any vouch copies available?

#Skipper - November 20, 2016, 1:46 pm

You should give out a Vouch Copy to a trusted member, so they can verify it's a working and unsaturated method

'Extra Service:

So if i give you 1\$, you'll give me 7, then i give you 7\$, you will give me 49\$

Lets see if you will really :)

Hayley - November 20, 2016, 1:50 pm

I'd be willing to take a vouch copy if you deem me competent.

RS-4 - November 20, 2016, 1:53 pm

Or instead, load up Tor and go to your favorite 'Bitcoin X10 Exploit' site... Give it 24 hours, snatch back your BTC. Put it into a BTC Tumbler Boom, snatch it back again. Not so hard?

You don't really want to take this seriously, I'm only joking

Dredd - November 20, 2016, 1:58 pm

I'll ne willing to take a vouch copy OP if any are available ?

He is lying, and giving me false rep. Just shows how desperate he is, Check my rep and what he said. I reported him since he broke the rules, and has 24 hours before reaping what he sow. Can you trust a kid like him? If so, go ahead.

JUSTIN - November 25, 2016, 6:08 pm

Hayley - November 27, 2016, 1:54 pm

Guys, it's not carding.

But um, it is what the other guy posted in the thread he linked on here.

I couldn't test it out due to country restrictions and even if I could I most likely wouldn't as I pretty much think that it's illegal, doable, but illegal.

Egregious Jr. - November 27, 2016, 2:15 pm

Don't deal with this member, he gave me false rep and is selling a fraudulent method.

Any person who's not a retard knows that if there was a legal, easy to do, working method which 7x'd your investment then it wouldn't be getting sold here.

Care to explain? I did take a screenshot of the main thread where Hayley's review in case you decide to edit it again.
