Thread: [What kind of watch do you wear?](#)

Kill Joy - November 20, 2016, 4:13 pm

Anyone here wear a watch at all? I wear a gshock on a daily basis as it's a necessity for my job. I also have a fossil (forget the name of it). This one is my baby and I will pass it down to my children some day hopefully.

Walmart link if you don't like Amazon. It's a good watch, and water resistant.

Walmart doesn't ship international, hopefully Amazon does with this watch.

This item does not ship to Netherlands. Please check other sellers who may ship internationally.

Nevermind

Lately I've been meaning to get a really fancy watch but I just don't have the money right now. A lot of these look really cool!

test - November 20, 2016, 4:38 pm

A cheap fake thing from China. Still looks decent and only cost me \$5. I'm not huge on accessories.

Watches are definitely worth it. Save your money up for one! You can get nice watches for \$200-\$300 and really nice watches are gonna be lie \$500+
