Thread: [Scammed by FiftyTwo \(UID = 2618971\) - \\$30 BTC](#)

All Business. - November 21, 2016, 3:20 pm

FiftyTwo: <https://hackforums.net/member.php?action=profile&uid=2618971>

tl;dr: The method is public, old, and also illegal.

I sent this user \$30 for the so called "Free xbox gold method". It was bullshit. Not only did it include social engineering and lying to obtain codes, but it included other things such as scamming, deceit, and was blackhat and illegal. I was refused a refund, even though I clearly stated I would not affiliate myself with such garbage. Not to mention, this is the same method being sold by others members, for less. As well, the gift cards aren't free as the user stated.

Proof: <https://gyazo.com/062077c723850e02667d67ae0d3c1fb2>

Edit: I forgot to say, this user most likely lied about the speed of the method as well, stating it took hi 5 minutes to get 2 cards. He then told me it takes time and effort after I bought it, saying it took him a week to get 4 cards. I cannot believe I was fooled.

Could you please take a screenshot of the private messages in HF, to see if it's him?

Lol you bought an ebook or method and now you're mad.

It happens to the best of us, gotta learn your lesson somehow.

Should I be happy about it?

Not taking any sides. Just wanna state that all of those mentioned things are allowed to be in e-books.

Nah but you should stop wasting your time tbh.

Lace up and learn a lesson.

FiftyTwo - November 21, 2016, 3:25 pm

When did I say the gift cards aren't free?

Also, depending on someone's morals, I put in a method for everyone.
I put in a completely whitehat method which you could've followed bud.
You haven't even tried the method and you demand a refund.
I refused a refund because you didn't even put the littlest of effort to try it - you literally bought it and said you're not doing it so I should refund you.
Also, the social engineering wasn't discussed on site as you know yourself and I explained in the screenshot.

Ugh, please don't lie.

I never said it took me a week to get 4 cards. Show me the screenshot where I specifically said it took me a week to get 4 cards.

Also, it did take me 5 minutes to get 2 of the cards.

Time and effort will obviously need to put in on the first go since it'll be your first time doing it.

It's like presenting words to a person who used to be deaf - it's completely new to them.

Not one part of this is whitehat. I refuse to try an illegal method. I don't care if it works or not, I'd like to keep a good reputation with the company, and not risk being banned. My morals do not match at all with this scummy method that includes ripping off Xbox as a company.

If you follow the whitehat method, which you know what I'm talking about, you won't be having any of those complaints.

Also, none of this can get you banned.

Your morals can be kept by following the whitehat method bud.

This must be your first time buying a EBOOK, here's a tip stay away from them.

Wasn't even an eBook lmao.
Was a working method.

Never understood that... If it's not an eBook, what did you send to him? I understand there is mentoring as well but do you never send him anything in the form of a PDF? :P
That's completely offtopic, but I had to ask ?

? Quick ? - November 21, 2016, 3:38 pm

Unless the thread specifically says that you are entitled to a refund than there is no point in pursuing this.

It's an old public method, once I confirm fully I'll be giving it out for free in the giveaways section

I don't think this is a worthy scam report.....you purchased an E-book and got what you were promised. Maybe not totally honest method but working method. Also, being honest to your customers is always top priority that is correct.

From what im seeing it seems Greyhat. But this report is not valid, it looks like he bought it and then asked for a refund asoon he quickly read through the method. again which means that he never even tried it. Hope you both resolve this. ?

Thread FiftyTwo had made, it said the method was greyhat. By purchasing, he knew it was greyhat.

You are a scammer, and most likely a multi accounter. do us a favor, close the thread and drink bleach. you're just human waste of space.

I'd give it away for the simple reason that you stop selling public shit. People are getting ripped off without knowing it, ub3rs have PM'd me confirming this.

Dude, right now I can reveal the PM of you offering to resell the method to someone, violating the ToS.

I can create a community alert for that because it says that once you purchase, you agree to the ToS.

Let's say you sold me your brand new car, and the second I hand you the money I ask for my money back because I don't like it.

That doesn't work man.

-> It seems the user has been negged by Omni too.

His first few reps seem to have come from asking for it to be able to post in the marketplace as well. This user literally just wants free stuff.
