Thread: [Paying \\$10 to Complete My OOP Project](#)

Really - November 21, 2016, 4:58 pm

Hello, if anyone is interested in making \$10 Paypal to complete my Intro to OOP project send me a PM! The project uses the concepts of data encapsulation, abstraction, inheritance, and polymorphism. I have several exams coming up so I don't have enough time to dedicate to finishing this as it is due on Wednesday night at 11:59 PM EST. I'd say 80% of the project is done, just need a couple of methods to be finished.

Here's what needs to be done: <http://pastebin.com/HkWgk6Yz>

Stealth™ - November 21, 2016, 5:08 pm

Just PM'd you with my contact information.
