For those of you who are confused on how to buy the Monero award, fear not! Follow this tutorial and you will have your award shortly :)

Step One: We will be using <https://shapeshift.io> to buy Monero currency. Make sure you have Bitcoin or any other crypto currency [Shape Shift](#) supports.

Step Two: Click continue and fill in the required information.

The Monero address and ID look like this:

Step Three: Click start transaction then deposit your crypto currency into the address given.

Like it states in the picture.. Do not freak out when you click the blockchain button and it says your transaction was not found. You need to wait a little bit for it to appear. If you have any questions or complications, feel free to post below!

Thanks for the tutorial. I was looking for places to exchange one currency for another and wasn't sure if this website was legit or just a scam site. This thread showed me it was real. Thanks :)
