Thread: [Scammed by Loco. | UID: 3271266 | 82,50 EUR](#)

And again... Got scammed by Loco. for 82,5 EUR. We made a deal for 85 pounds for his 110 pounds UK AGC. Got only 81,5 EUR BTC so I told him I will send the rest in PayPal after he sent me the AGC. He accepted this, but never responded after I sent the BTC. Already exchanged with him so I thought I could trust him. He did also deals before with other members for 100 EUR + so yea I went first.

Hope this gets resolved...

There are currently over 53,000 un-confirmed transactions.

As well, myself waiting for a payment, which was sent about a hour ago.

As I can see he sent the funds to your BTC, but you might not see it yet.

Just wait a bit.

<https://blockchain.info/unconfirmed-transactions>What? He sent the BTC to my account? I sent it to his account...? He was going to give me an AGC.
