Thread: [Good crypter for quasar?](#)

Wespa - November 22, 2016, 2:20 pm

So after trying out couple crypters with quasar they dont seem to give out too good results.

I have read that something is wrong with the rat and it is a "pain in the ass" to crypt.

Does anyone know a good crypter for this? Looking for actually FUD ones.

Paid or free, I don't care.

Thanks!

pm me on skype

Breaker9691

i don't know much about quasar rad but then i can give it a try

Backopy - November 22, 2016, 11:51 pm

there are many high quality crypting solutions available on the market.

Check out the marketplace.

Very less Crypter work with quasar Rat.

My Crypter has special stub only for Quasar Rat, you can have a look here :

<https://hackforums.net/showthread.php?tid=5423090>

I think DataProtector v4 also works with it, but make sure before you buy.

My dude really just bumped a thread from 2016.

Will close this now.
