"On Xbox One, Xbox Live Gold members can download Sleeping Dogs: Definitive Edition (\$29.99 ERP) for free during the month of December.

Outlast (\$19.99 ERP) will be available as a free download from December 16th to January 15th."

"On Xbox 360, starting Thursday, December 1st Outland (\$9.99 ERP) will be free for Xbox Live Gold members through December 15th. Then on December 16th, Xbox Live Gold Members can download Burnout Paradise (\$14.99 ERP) for free through December 31st."

I'm so happy that I never went on youtube and watched "outlast" now i get to play it and enjoy the scares :D

As for Burnout Paradise one of the best racing games ever created well theirs no much to be said then I can't wait to wreck shit up!
