Paid for one day shipping (never again)

The other parts for the PC I already have.. this is just what I had left to buy

Anyway yes, I found a really good traffic source and still have around 800 chats in my kik..

Dont bother asking me what the traffic is cause I will never sell it nor will I give it away.

Nice earnings. It motivates me to eWhore, but I will continue depositing and losing money on Bustabit for now.
