Thread: [Shell Finder | PHP Script | Find shell at any website |](#)

**Chill Dill** - November 23, 2016, 6:43 am

Its a good php script for finding shells at any website,you just have to put the url!

Link : [pastebin.com/ymuirX1K](http://pastebin.com/ymuirX1K)

**advr** - November 23, 2016, 9:25 pm

Thank you, going over it now

**Directoryl** - November 26, 2016, 8:53 am

Thanks I'll surely be using it!

**Viikinki** - November 26, 2016, 11:21 pm

Thank you OP!

Will test this tonight on my website.

A custom directory bruteforcer-like program. I like it, thanks for the share :)

**m115** - *December 1, 2016, 8:49 pm*

i hope i enjoy :D

thanks
