Thread: [Dyncheck NEW Online Runtime Scanner](#)

DarkMove - November 25, 2016, 1:32 am

H19H

promising project, and the only one as I know, which conduct REAL Runtime check, This is not sale threat, The website works fine, but it is invite only due Beta phase

[Dyncheck](#)

Service Status: ON, The service is under updating + adding new feature

UPDATED ENGINES

IMPORTANT:

Singing up is free, the prices as shown in the website 0.5 per AV (Internet Security) engine, the OS not implemented yet

Total of 18 AV Ready to use

if you want to scan your file with all of them will be \$9 you can chose only one or as many as you want.

This after scan results:

it takes the time and snap picture in case of detection

[Report#1](#)

[Report#2](#)

[Report#3](#)

[Report#4](#)

IMPORTANT NOTICE

1- most of not all the AV in dyncheck are cloud, but cloud doesn't work now, it requires most of the times uploading your file to AV cloud which will result of being detected, means if it bypass Runtime here it will bypass Runtime on AV Anti-Virus version ex: Avira Free and Avira Internet security, but it might get detected if you test it on cloud version

2- I Do not provide any kind of support, I have invites to people who need this service

3- if you get invite code and register please read everything.

- 4- BTC only and may take an hour to see your balance
- 5- This is Beta don't send a lot of credit to your Dyncheck Account
- 6- if there is comment or anything I will send it to the owner

for myself I'm using it, good service so far

Replay if you want invite

Replay if you want to check your file (this from my account so it will be limited)

Crypter Coders and High rep members have the priority

I hope you guys like it

Q: why you doing this if your not the owner

A: I'm supporter and I think it is good service, otherwise I won't write about it, PLEASE share your reports and let me know if there any problems

Please don't PM me unless you got invite or check file

I will replay to users who ask in the thread, please don't PM me for invite code, as said, Some users have priority to obtain invite code

Changelog:

[+] Added Malwarebytes Anti-Malware

[+] Added Sophos Anti-Virus

Features will be added:

[*] Cloud check (This option will risk distribute your file)

[*] Downloader/Droppers Check

[*] Custom IP/Domain to upload your test files (for Droppers and Downloaders)

Thanks

DarkMove

martin leo - November 25, 2016, 1:37 am

look fantastic ! very helpful

good luck

Codefuser - November 25, 2016, 3:21 am

Yeah got an account already, going to test it later today.

Mormons - November 25, 2016, 3:49 am

Good to see a run time scanner in the market will check back soon

Hi8snow - November 25, 2016, 8:04 am

Perfect, hope the full version its ready in a few days! Thanks

ForceJew - November 25, 2016, 9:44 am

Looks amazing give your friend a good luck from me:)

Kisame? - November 25, 2016, 9:47 am

Let's hope that they actually don't distribute. Would be heaven to see a good runtime scanner.
I'll wait it out a bit.

Thanks for alerting though, will come back to this thread later.

Longevity - November 25, 2016, 10:15 am

Can you PM me your skype or a form of contact? I would love to speak with you about some things.

Autist - November 25, 2016, 10:17 am

Finally a runtime scanner! Can I get an invite please?

©**Ratatouille™** - November 25, 2016, 11:39 am

Nice , maybe buy one test

DarkMove - November 25, 2016, 11:52 am

(Nov 25, 2016 12:39 PM)©Ratatouille™ Wrote: [\[CITE\]](#) Nice , maybe buy one test
you want me to test your file?
or invite code?

(Nov 25, 2016 11:17 AM)Bart Allen Wrote: [\[CITE\]](#) Finally a runtime scanner! Can I get an invite please?
PMed you

©**Ratatouille™** - November 25, 2016, 12:27 pm

(Nov 25, 2016 12:52 PM)DarkMove Wrote: [\[CITE\]](#) you want me to test your file?
or invite code?

PMed you
Oh yes please , invite code is cool

martin leo - November 25, 2016, 2:35 pm

can have a try (invitation code) please ?
thanks

akusoftlove - November 25, 2016, 2:51 pm

how do I get a long lasting crypter

Autist - November 25, 2016, 4:29 pm

this is amazing, should stop crypter owners lies "oh yes 100% run time fud" now you can test it

DarkMove - November 25, 2016, 4:56 pm

(Nov 25, 2016 05:29 PM)Bart Allen Wrote: [\[CITE\]](#) this is amazing, should stop crypter owners lies "oh yes 100% run time fud" now you can test it

Also keep in mind these are Internet Security versions - every machine can't connect to the internet for saving the files from Cloud check
if see the LAN in sys Tray has notification

Crypting will be hard soon to keep up with new AV tech, but if I will choose crypter it should be clean
scantime

Runtime:

AVAST Internet Security: if you bypass AVAST then you won't have problems with others but
Nod32get

Nod32, in memory even if bypass the execution as soon as you try to use KeyLog or pass recovery then it will be detected

KTS: even if you chose not to send samples to Kaspersky lab, they will get every file that passes through KTS

AVAST bought AVG

BitDefender, hell of a beast but no one is using it

(all this when cloud are on)

Glyco - November 25, 2016, 6:13 pm

By any chance do I qualify for an invite? I could really use this I am at a stage where I am coding my crypter. I'd like to see my runtime results

Thanks!

VirtualMon3y - November 26, 2016, 7:41 am

Posting to keep any eye on this.

Does it distribute OP? Just checking..... ?

Thanks for all buddy, your work its amazing! ?

Lexus™ - November 29, 2016, 10:52 am

Great Service ! , Can i get an invite please?

Vitani - November 29, 2016, 10:57 am

I discovered this site a few days ago. It's quite expensive if you want to do a runtime test on all AV's available as it's \$0.50 per AV per scan.

It does look like a great service though, if you can get me an invite I'd really appreciate it OP.

kpown - November 29, 2016, 10:58 am

What a great service,

Thanks for sharing OP

xavierwulf - November 29, 2016, 12:35 pm

thanks for this scanner, im going to try it out.

DarkMove - November 29, 2016, 4:08 pm

You are welcome

debug - November 29, 2016, 4:27 pm

Looks promising, just hope you don't get the KillaMuvz treatment!

RIP

3xpl01ts - November 30, 2016, 3:42 am

This looks awesome!

Hope i can get a invite!

Evanescant - November 30, 2016, 3:51 am

Looks awesome. It's the most awaited scanner in the market.

jojo578 - November 30, 2016, 6:50 am

It's look be great service can i have invitation or the link to use the service pls

Thanks

Bilicz - November 30, 2016, 8:55 am

please sent me invite

Thanks

yotoprules - November 30, 2016, 9:15 am

Hey, I think you missed me, can I have an invite code?

Codefuser - November 30, 2016, 7:10 pm

You shouldn't set comodo on maximum security because it will prompt for literally every single action.

Hello i interested on test, you can give me invite code? Thanks!

Baitable - December 21, 2016, 6:49 am

I'd like an invite ^-^
Thx

? [\$(1000)\$] ? - December 29, 2016, 8:55 am

May I get an invite code, please.

Thank you.

react - December 29, 2016, 9:03 am

I'd love an invite code. This looks super promising!

Antonio80 - January 4, 2017, 11:45 pm

Hello,
could i get an invite code ?

thank you

Jelokadi - January 5, 2017, 2:56 am

You all better be sending a message to the official XMPP account of the service.
He hands out invites to anyone who asks, he probably just likes to get an eye on the demand

kmer237 - January 7, 2017, 6:55 am

Hi man,
I need invite to register
cheers

pnea546 - January 7, 2017, 7:18 am

Thanks i will try nice one ;)

xna81425 - January 7, 2017, 7:22 am

I need an invite code to test my new polymorphic crypter

Feivism - January 7, 2017, 8:59 am

If it doesn't distribute like it says this would be great :D

Pink - Panther - January 7, 2017, 9:01 am

Could I get an invite, please?

xna81425 - January 7, 2017, 10:55 am

I vouch for this service 100%.

TheMockingBird - January 7, 2017, 4:47 pm

Hope this doesn't end like another HF runtime scanner by KillaMuvz...

GLWS !

asmy - January 8, 2017, 12:26 am

Looks amazing

Let's hope that they actually dont distribute

grandzeroes - January 9, 2017, 2:46 am

Hello! Looks really amazing)

Could I get an invite code, please?

(Feb 15, 2017 04:27 PM)DarkMove Wrote: [\[CITE\]](#) Beta is over, Registration will be open in couple days

This project is revolutionary. :) Will the project go a paid system later? I do not think you will continue to offer this project free of charge. Because I guess because there are some costs. I look forward to the Registrations being active :)

Tsar - February 15, 2017, 4:34 pm

I cannot wait to see this open.

GoodHacket - July 16, 2017, 6:53 pm

Please give me Code=) i very want to try it

LordBed - July 19, 2017, 4:23 am

still are you giving a code?

kauf - July 31, 2017, 10:03 pm

can you try have BTC payment on your site. it's kinda hard to get those coins payment you have there

Heresys32 - August 5, 2017, 3:18 pm

look fantastic ! very helpful
good luck

Karakum - August 31, 2017, 7:58 am

It seems that the settings Kasperski (KIS) differ from the default. Can I find out what settings are in the dyncheck?

dyncheck - September 21, 2017, 9:11 am

(Aug 31, 2017 07:58 AM)Karakum Wrote: [\[CITE\]](#) It seems that the settings Kasperski (KIS) differ from the default. Can I find out what settings are in the dyncheck?

Hello!

Settings of KIS is set up to default. Try to compare version you use and connection settings while check. If any problems, feel free to ask us in jabber.

Mazekeen - September 30, 2017, 7:32 am

The service is good and fast.Is it posible to link the results as image

kevy42 - September 30, 2017, 9:27 am

yo question, i use to use this scanner, but it was showing some inaccurate resoult, hows ur network setup on the VM's?
