What is this tool designed for?

Spoiler [\(Click to View\)](#)

Social Spread was made for marketing, CPA, and other things to do with advertisement, with imagination and creation, there are endless possibilities with this tool.

What does it do?

Spoiler [\(Click to View\)](#)

You simply enter the message you would like to post on to the builder, you then build the stub. When the stub is executed on another machine, it checks for facebook / twitter passwords and silently posts the message that you previously entered to the account.

For anymore information, simply contact me Via PM.

Malicious007 - November 25, 2016, 12:09 pm

nice product but where's screenshots buddy ?
