Thread: [HOW TO SPOT A EXIT SCAM](#)

spooky hacker - November 26, 2016, 4:41 pm

hello community of hackforums it is time we break down the physics of exit scam and how to spot one...

exit scam but spooky hacker what the heck is that ?

Answer: a exit scam spree is when a user scams a bunch of people and then LEAVES...

ok spooky hacker i have the basics whats next??

CHAPTER ONE | A KNIGHT RISES

ok so exit scamming is a bad thing right lets find a way to spot it..

from past experience exit scamming is most caused from DEPRESSION

oh crap really? Yep 98.7% of all exit scammers act from depression,

CHAPTER TWO | A FRESH HORIZON

in the last chapter we learned that depression causes exit scamming so now lets see how to spot depression

from personal experience depression is spotted from this;

Loss of interest in things that were previously pleasurable

Sleep difficulties

Eating changes

Anger and irritability

Expressing negative thoughts

Suicidal ideas

Loss of confidence in oneself

or also known as LSEAESL

notice some similarites from exit scammers.. yep thats right ALL OF them have it

if u see depression in a fellow hackforums client REPORT THEM STRAIGHT AWAY IN COMMUNITY ALERT OR PM or any other way so people can notice

CHAPTER THREE | THE BLACK SWAN CALLS

after this seek the attention of the user in private message:

hello (user)

you look great today keep it up

ummm so im sort of lna hurry and need 2000 btc to exchange for paypal... u seem super hq and trusted so i will go first wanna deal..? =]

there are 2 answers to this:

YES or NO

yes: scammer DO NOT DEAL AND REPORT TO SOMEONE

no: THIS GUY(or girl) IS NOT A SCAMMER

CHAPTER FOUR | NUDE GRAPHS

for the last chapter i will explain to u how to use the trust scan feature..
trust scan feature located on someone post as TS
make sure all is green..
if not = scammer
Make sure no password,email,username,ip changes in last week
if there is = scam
matching other ip = scammer
or scam report = scammer

CHAPTER FIVE | DISGUSTED TURKEYS

now we will take apart the user groups

no group:
5% exit scam
leet:
20% exit scam
epic:
10% exit scM
epic + other group:
50% exit scam + the exit scam of the group that its added with
uber:
70% exit scam
any award add 10% per award exit scam

suggestion from others:
When the user trys to sell 1000 bustabit methods and still fails.
from - nice net bro

well that is it for now i will update with a lot of more tips and tricks to help others thank u for reading
and have a Merry Christmas everyone
Also search his for scam report comubnity alert

Vouch for this method on pointing out an exit scammer. Works every time, highly suggest using this to avoid the spooky scams.

Thanks for the useless guide. This is not true at all. Someone who is exit scamming is not always depressed. What is wrong with you?!

Vouch for this method, you'll be able to spot exit scammers before they know they are exit scammers!

WhiteGirl - December 21, 2016, 12:38 am

Under your guidelines, my account then would be considered an exit scam. This is so bullshit, i've been around this site for years I know what exit scams are. Some niggas like me only come to deal with other niggas to get BTC, PP or sell shit.
