Notice now the name is blurred out?

Now here's where it gets even more suspicious:

Surprise surprise, the two people that repped him are Nysta and that other retard who is selling for him!

Note the skype, fibao.business, that is Nysta's skype!

So obvious, I really hope something is done soon.

He could just be buying Vouches or that could be someone who actually bought it. Regardless i think proxy selling is allowed but not sure about this.

Just that the account that vouched for him was very suspicious to me, that the only people who repped him were affiliated with Nysta.

Oh my fucking god, we know.

The point is Nysta/Cambar is a scammer, and you've got broke kids looking to make a quick buck by selling for him.

Incapability is also selling for the scammer:
