I contacted him yesterday regarding a PP trade for BTC,he told me to go first,since he has so much reputation,I did,and now I regret it.I sent him 80 euros on PayPal for his 72 Euros BTC.He told me that he is driving and I said ok,after you get home tell me.He told me that he will and he is having bad traffic,waited like 2-3 hours then he told me that he will have dinner and send me after.After waiting some more he told me that he got no money and it is still in pending but I showed him proof that I sent.
