It looks nice but too big on my screen, or wait, is my screen too small actually?

Anyways, pretty creepy.

**Riyu** - November 30, 2016, 4:05 pm

Looks very nice. Nice job Nevieth.

It's a large image, comes up to 1200x689, I'm probably going to resize it for 1920x1080 for my desktop.

Thanks Riyu, I might make you a signature for real since you're nice now. :P

Teach you what? It's a simple paint brush and shit. Just don't use your mouse to do it.

Truth be told Photoshop does most of the work, you only need to touch up some parts with paint and smooth it all out.

Fucking Adobe is crazy.

Looks pretty dope, I like the creepy looking figure coming off the left tree, was that intentional? If so it worked well.
