Thread: [Shadow's 1 year on HF feedback](#)

Egregious Jr. - December 2, 2016, 8:17 pm

Preface:

So it's finally here. After months of waiting and waiting, and months of endless bits of drama and chaos, it's here.

Introduction:

I joined this forum on December 3rd, 2015. Can't exactly remember why, honestly I don't even remember making my account. I think I wanted to leech something from the minecraft section, but I couldn't view without an account. Thus I joined. I became active a few months later. Let the journey begin.

I upgraded to l33t on April 27, 2016. I even still have my PM's with Minimalist.

tb to that

sent brother

I upgraded to l33t and that was wonderful. However, at around 630 posts and 63 rep, I was rep killed for an invalid rep. That was on May 15, 2016. I was kinda bummed, but with only 63 rep at the time it didn't bother me too much. I was determined to recover, and I did.

Fast forward a few months, bought a few awards and 3p1c. Despite being denied Ub3r, I never ever wanted to leave the site. Hackforums is a forum truly unique from all others.

On August 10, 2016, I took a long 2 month vacation ban. Wanted a break. I came back on October 10th. Not much has changed here since then.

The state of hackforums:

I think HF is doing well right now. It's a great site and I hope it continues to grow. I hope the stigmas associated with hacking go away soon.

State of groups:

I think groups are meh right now. They seem far too expensive for what they're worth, and most groups to my knowledge don't do much. Maybe if they went down in price we'd see some decent groups.

Staff feedback:

Omniscient - You run an amazing forum. Even if we're not on the best of terms you've done a spectacular job of running the site.

Sam Winchester - Don't know you much, but you seem like you do your job well.

King of Hearts - Great and active staff member. Doing a great job with rocketr as well.

Skorp - I don't even know who you are, I know you as the guy who doesn't send PM's when you give out warnings.

Group feedback:

Notorious - Seems like a cool group, but they won't accept me ?

Echo - Chill group, has changed a lot imo.

Nightmare - Some random group that does stuff these days

Red Lions - Used to be some exclusive group, now it's way less exclusive imo.

Riptide - Good luck with the group fannas1.

Dawn - ???

Enigma - Was a cool group, until you kicked me.

Fusion - ???

Illuminati - Bandors reply to me on skype

The Order - Group I actually think is good, has a very active SF.

Eclipse - Seems cool, like the old red lions imo.

Titans - ???

Synergy - Looks like a nice group.

Royalty - ???

Legends - Looks like a blackhat group full of carders

Baka - apex is ass

Member shoutouts:

Minimalist: Amazing guy, you know why. Always being there for me as a MM whenever needed.

Egregious: You're a nice guy.

Confound: Hey cuddly dude <3

Super: Miss you buddy. Wish you didn't giveaway your account.

Vanilla: Lol, our past feuds were kinda funny. You're cool.

Cake: Love you dude <3

Riyu: i love you too multi <3

- Sam - : Quality member always helping out. Nobody calls out Black Shadow like you do either :P

The end.

Closing note:

Thank you to everyone who has helped me throughout my journey on HF. It's a great site and I feel very privileged to be a part of it.

Nice feedback, we'll try to make sure the group after riptide goes in the best direction. Who are the "no names" in Red Lions though?

Just seemed like it loosened up a bit.

I see what you mean. Thanks for the feedback on the groups, that's the part I enjoyed most.

bugga - December 2, 2016, 9:07 pm

Happy yearaversery ? lol

HF seems very different to me after over a year away. Goof to see people still enjoying it .

Xogg - December 2, 2016, 9:11 pm

Congrats on 1 year on HF!

I Hope To Be There One Day!

Nevieth - December 2, 2016, 9:13 pm

Nice feedback thread. I do have to ask though, who's been waiting?

Quote: So it's finally here. After months of waiting and waiting, and months of endless bits of drama and chaos, it's here.

This sounds like we've been literally on the edge of our seats for months.

I can promise you, that's not the case.

Fair enough.

Oh and OP, regarding this point.

Groups are actually as cheap as they've ever been, actually. A few years ago they'd go for \$8,000 to \$11,000.

I've had a year and a bit away but at that time Infamous was the highest price a group had sold for, it wasn't near 20K but it was a substantial amount.

Kundra - December 4, 2016, 4:20 am

Congrats on one year brother. Hope I'll be able to do the same and make a thread like this as well in 1 year time?

minimalist - December 4, 2016, 4:23 am

Thread was very wack
have a friendly second year

Celph - December 16, 2016, 9:26 am

You gang rep people with neutrals calling them shady with your broke back friend.

I'd say your a LQ shit poster but I won't go that far. Anyways, a year is nothing.

Sajuuk - December 16, 2016, 9:33 am

1. HackForums' activity is doing well. The content that is being posted, in select sections, is not doing as well as it was in past years.

2. Every one of the recent feedback threads I've read only have shoutouts to the "popular" members. This explains the "not doing as well" although somewhat ambiguously. No one ever shouts out people who helped them, let alone anyone that provided (potentially vital) assistance in the first months after their registration.

3. One year. Hah.

Viska - December 16, 2016, 11:32 am

I think this is a bit overly dramatic no? You speak about drama but it seems to be that your the one who spews it lol...

"I hate the recent drama that has popped up recently". Lowkey starts drama with highkey feedback post.

Tando - December 18, 2016, 12:54 am

Another generic feedback friend where the new and unfamiliar HackForum user shouts out a few users so they can feel like they're popular on HF or something.

Red Lions and Logic/Void were the only HQ groups. And MRT.

M?xim - December 18, 2016, 12:55 am

I did not even get a shout out. Smh.
