What can I say, After knowing he spent months worth of time working on and writing this master piece when I got a chance to read it over, it is one of the most thorough guides to Hash cracking I have ever read.

Well worth the price and read, and once again, this is no BS E-book, this is in printed format with a ISBN and everything.

100% Vouch for this.

I've seen the book, I've read it whole... Till now the best hash cracking related book I ever read ? A lot of examples, pictures and explanations that will leave nobody without answer to their question regarding this topic.

Good job ?

(Dec 2, 2016 06:58 AM)Mr. Robot Wrote: [\[CITE\]](#) This is not "Basic". This is as close to advanced as you can get and will give you the knowledge you need to advance in the field of hashes and cracking them.

Do not miss this publication - this is doesn't deserve to be called an ebook as this is so much more. I highly recommend everyone on this forum buy this and read it. Whether you are only on here for playing games, personal security or hacking WiFi - this publication is something you need to read. This is the type of knowledge that will stick with you for life and will give a huge advantage to you in the field of security and pentesting.

I'm so happy to see the credits, and I agree that Armada, pomwtin, Chick3nman and the others are the best at what they do in their respective fields on here and just with them alone, we can see you have learned a lot yourself Mad76e.

There is so much collective knowledge inside that it blows my mind you took the time to make this, it's truly a piece of art and please sell this on Amazon or the app store - it's worth it.

Best of luck to you on this mate, I wish you only the best and it makes me inexplicably excited to see this finally hit the market.

Mad76e - December 2, 2016, 4:52 pm

Expect the EPUB ebook to arrive in a week..

Tokyo - December 3, 2016, 3:27 pm

Mad is a genius cracker in the field and I guarantee this will be the last guide you'll need to purchase.

BTB™ - December 4, 2016, 11:28 am

OP knows what he is doing.

A huge vouch for my brother.

GLWS.

bzr? - December 5, 2016, 8:16 am

Mad76e is one of the most acknowledged members I've seen in this area!

This book is something not to be passed up if you're remotely interested in this area, GLWS bro.

Hash G. - December 5, 2016, 12:00 pm

Mad is back at it! Don't hesitate to buy, he knows what he's talking about when it comes to hashes.

Evanescence - December 8, 2016, 2:19 am

Vouch for Mad, cool guy and this book looks awesome!

Atom™ - December 8, 2016, 6:48 am

Can definitely vouch for Mad76e here! Dude's a great guy and is really knowledgeable in his field.

This book, its worth it!

GLWS,

Regards
?

Mad76e - December 9, 2016, 8:34 am

Well its out both on Amazon, Barnes&Noble , Ingram and everywhere as long as you have the ISBN (9781365481895)

Expect the EPUB book to be done in a couple of days, and delivered to Google Play, iBookstore and to the kindle platform shortly

?now - December 9, 2016, 8:37 am

Is it a printed book or ebook? Definitely worth checking out either way cheap as hell

Mad76e - December 9, 2016, 9:30 am

Its a printed book at the moment, however the book will be released as an *.epub ebook as well for those who have eReaders or tablets. Give me a couple of days :D (its a bitch converting it tho)

Mons - December 10, 2016, 4:46 am

Big vouch for OP.

Great Ebook and knows his skill.

imghostin - December 12, 2016, 11:59 am

Vouch for this great book. Definitely worth having it!

Good luck with sales :)

Mad76e - December 12, 2016, 3:29 pm

Book is now available @ Amazon and a lot of places.. Keep your eyes out for that ePUB e-book.. its out as well but im waiting for a new better version, because it seems that the converter that converted the e-book messed up, so a new one is on its way out as we speak (not a spelling or grammar error)

Conscious - December 14, 2016, 1:06 pm

Vouch for Mad76e!

Amazing book, I've seen some previews and I love it.

Mad76e - December 17, 2016, 10:32 am

I had some setbacks due to some weird results after converting my book to ePUB ebook, but its finally done.. :D time to celebrate

Its out omg omg! LOL

Buy it from Lulu in first place. Wait 14 days before buying it in IBookstore, because they need to get the corrected file from lulu first..

Congrats man.

I've been talking with Mad76e for a while now, everyone who knows him how much effort he puts into these books, it's nothing short of admirable!

A must have if you want to know anything about hash cracking. GLWS bro.

Covalent - December 18, 2016, 7:44 am

I would def buy if it had a section on how to make custom algorithms to crack by. Lets say if there was a hashmode that wasn't supported by hashcat like md5(sha1(\$salt).md5(\$password))
Its not supported but you can make a config to crack it.

I see.. However then i had to change the name for the book as well, this is far from "basic". But ok i see your point

Raymond Reddington - December 18, 2016, 9:33 am

I have read the book personally, and all I can say about this is good and kind words.

Koopa. - December 20, 2016, 8:36 pm

GLWS OP, I'd buy it if I had the money.

KING - December 21, 2016, 9:44 am

Vouch for Mad76e. One of the best Hash Cracking Guide. Worth every penny. <3

TRH4CK - December 21, 2016, 10:27 am

Vouch for Mad76e! Book is 100% high quality ?

Siwel - December 21, 2016, 3:03 pm

Big vouch for this, mad76e is amazing at all this hacking mumbo jumbo.

MiLkBoNe - December 22, 2016, 3:51 am

This is unique!

Good luck with sales.

Koodex - December 22, 2016, 1:08 pm

This looks pretty damn nice I always wanted to get into Hash Cracking but never really took the time to start learning. I'll buy a printed copy soon most likely :)

Varane - December 22, 2016, 2:33 pm

Huge vouch for OP, dealt with him in the past.

DamienVC - December 22, 2016, 4:46 pm

Definitely worth the money, vouch for this product

Its a HQ physical book that provides vast knowledge for an affordable price.

Riyu - December 23, 2016, 8:24 am

This looks awesome and not like any other shitty product
glws

mObile - December 23, 2016, 8:52 am

Aye you finally got it published. ?

Only selling it for \$13? What a steal! I mean with all the data breaches lately, cracking database hashes is not easy if you don't know what you're doing. And with the amount of knowledge and details you've put into this, definitely worth a lot more but whatever.

You have my vouch!

Glws ?

Juicy - December 24, 2016, 8:14 am
