Thread: [Good Resources for Learning Python?](#)

Sagacious - December 1, 2016, 12:45 pm

Do any of you have any recommendations for books, and online resources to learn Python?

Please leave recommendations, thank you in advance.

Aveling - December 1, 2016, 12:49 pm

Here are some resources.

<https://learnpythonthehardway.org/>

And here is way more:

<https://github.com/vhf/free-programming-books/blob/master/free-programming-books.md#python>

I also recommend you to look at Python source code at GitHub so you can get an idea of how the language works.

Sagacious - December 1, 2016, 1:06 pm

I'll take a look at that. Thank you for the information. ?

Scooter_2 - December 3, 2016, 10:39 am

MIT's introductory course might be in Python (iirc). Check out MIT OCW.

No problem man. The most important piece of advice I could give you if you do choose to learn Python is to practice every day!

Aveling - December 3, 2016, 10:50 am

Here are some Python books that you can study.

<http://data.ceh.vn/Ebook/ebooks.shahed.biz/PYTHON/>

Good luck!

Grant1523 - December 3, 2016, 9:09 pm

I don't know for sure if this is what your looking for but code academy has mini lessons over all languages including python. Just google code academy.

SoyNuevo - December 3, 2016, 9:10 pm

If you've looked at codecademy but didn't like it, another website I would give is sololearn. Some parts of it are underdeveloped but overall it's very helpful

I'm using Codecademy at the moment, however, it only teaches the basics.

Try Youtube's channel named :- TheNewBoston

Really cool guy and he teaches it very good. The lessons are in a organized order as well , so that helps if you wanna skip any lessons.

That's where I learnt Python

Hope this helps :)
