Thread: [unable to capture handshake](#)

Ishtiaq - *December 2, 2016, 3:15 am*

Hi,

I have a problem to capturing handshake on linux mint 17. I installed it on my usb. And when i try to capture handshake on kali linux live cd, it works properly. But in linux 17 its not working and showing message fixed channel mon0 -1 but it solved by ifconfig down,up etc. Please help
