Have you ever wanted your own Crypter??

Copy Left : 5

Then now you can buy Source Code for a cheap price. You can do multiple thing with this like:

- Rebrand and sell bins
- Learn from the code.
- Improve it and sell for make more money
- And whatever you would like to do!

Features:

4 Injection Method (explorer , vbc , svchost , regsvc , selfinject)

This is not FUD so you will need to re-FUD it. I won't do this but there is plenty of coder here on hf that are willing to do.

DopplerAF - December 2, 2016, 10:00 am

No offence but what's the point of selling detected crypter well anyone could get public source and pay someone to re-fud it.

Well, earning some easy \$, nothing else

Blatngu® - December 3, 2016, 2:08 pm

Because old crypters may have functions that are outdated.

The price is 40\$ per copy , send me a PM if you're interested ?

Blatngu® - December 20, 2016, 12:01 pm

Christmas Sales , now only 30\$ per copy! --- Limited time ONLY ---

Baitable - December 20, 2016, 12:26 pm

Maybe if there was an anti-mem.. Otherwise anyone could make something like this with basic help..

Blatngu® - December 20, 2016, 2:13 pm

Indeed I sell this for a low price , so this can be accessible to everyone.

Ahaha I'm just generous I offer it for a lower price , but original price will be back soon ?

Blatngu® - January 18, 2017, 1:51 am

Still 5 copies available to public! Price will be back to 40\$ in one day!

Blatngu® - January 21, 2017, 4:10 pm

Current Price is 40.00\$, still a great price for get a good source!

Kicking - January 21, 2017, 4:13 pm

FUD it and then I may buy.

And if not, I will give you \$5 for it.

You can hire a coder for FUD it , I don't re-FUD as I don't have currently the time.

Not trying to trash or anything but how can you lower the price to \$40 if you litterally posted 5 times reminding everyone that you're 'still selling this for \$40'.

Hell you even lowered the price to \$30 before lol.

-

Is the \$40 a fixed price or is it flexible? Doesnt have much features to be honest.

Is it coded from scratch or is this a cleaned up/fixed version of a public source?

Also, how easy is it to refud?

Blatngu® - March 21, 2017, 2:25 pm

It is a fixed price , much I can lower is 30.00\$.

Indeed for the features it's a great price as it is coded from scratch no public source.

Easy if you know programming languages.

which language is it c# or vb.net

Blatngu® - April 10, 2017, 9:02 am

It is written in visual basic ?

Marwix - April 10, 2017, 11:20 am

You have been selling these sources over and over again.

I don't recommend anyone to buy it as this guy is making money out of an old source.

Beware!

Blatngu® - April 10, 2017, 12:00 pm

Mh sorry Marwix but I've sold only two copies and isn't an old source, Speak for yourself ?
