Thread: [Staying anonymous on skype](#)

Raid7 - December 2, 2016, 11:45 am

Had this video lying down on my channel for a while and thought i'd share it here too it might help some ?

[Video: <https://youtu.be/nX61c98xjCM>]

NOTE: this will not prevent any ddos it will just prevent your ip from getting resolved on skype.

You're welcome :)

I am unable to play the video because of low internet, if the video shows something about changing incoming ports and host ip, it's worthless because a person using wireshark can easily grab your ip from skype.

Only way to stay anonymous while using skype is to use a VPN.
