Thread: [Free 07 Gold - 1m for ub3rs, 500k for l33ts and donators with \\$20+ awards](#)

Torc - December 3, 2016, 12:21 am

Hey everyone, since people liked my last giveaway, I'm doing another. I have 15m 07. First come first serve! If you participated in my last giveaway, you will not be allowed to participate in this one. I want to give people who haven't gotten gold from me the last time a chance to get some this time. I will be hosting more in the future where everyone will be allowed to participate again.

Let me know your username whether in a post or PM.

I will be in world 383 at Lumbridge teleport spot.

The guy is so salty that I talked back to him and he's an almighty ub3r. Now he spams my threads talking shit. Same with that Argue kid. Last guy who did this shit had 700 rep and got himself rep killed twice in 24 hours and then a 1 month ban. Don't get carried away with yourself Celph and Argue. You'll end up with the same fate if you keep spamming bullshit on my threads.
