When using this, you should know when to stop. At first it was very good, I earned 30k+ bits, Then went on a red train and lost it all. Should've stopped. Well, it's gambling and this should really help. Thanks Medd

Busta bit changes patterns based on how much is available in their bankroll. If you see multiple people making large bets and winning consistently I'd take a break as that red train is the next stop.

Nice earnings man! Remember to increase your "stop if bet is" to ensure you win big! (If you want to take the risk)

Also know when to stop. There are occasions when it can backfire.

VideoWarfare - December 20, 2016, 9:07 am

If you are still giving this away I would love a copy!

I would like this please.

SHOLLEX - December 22, 2016, 5:46 pm

Lets see what do you got there OP, thanks in advance ?

Edit :

Recieved the method, personally nothing new to me, even made a bot to skip 20-25 rounds before starting with this method. Also I would recommend anyone who's wiling to use this method to do the same, just manually skip 20-25 rounds and then follow OP guide. But yeh this is profitable method as well, hardly can be run as a autopilot tho

Thanks for contests, will help alot of people out there ?
