Thread: [\[CLOSED\] PSN/PS3 ~ COD/GTA V Recovery Service ~ Free!](#)

pnda - December 4, 2016, 3:59 pm

Although I cannot contribute very much to HF, I will always give what I can!

Right now I am offering a PS3/PSN recovery service for L33T and Ub3R's - Free of charge!

* Yes I am aware PS3 is an outdated console, and modding is dead. That is why I am currently doing it for free.

(CLOSED) * Three people in queue currently: Will be done by tonight.

What I currently can do;

BLACK OPS 2

- Any prestige
- Everything unlocked
- High, Medium, Low, or Legit stats
- Custom League Play stats
- Colored class names

GTA V

- Any level
- Any amount of money
- All trophies unlocked
- Everything unlocked (Tattoos, clothes, cars, etc..)

MODERN WARFARE 3

- Any prestige
- Everything unlocked
- Elite titles
- Colored class names
- God classes
- Lots of tokens

* Advanced Warfare and Ghost recoveries will be available soon, if there is a demand.

If you wish to take advantage of this service, please private message me using the following template To keep things simple and organized;

Code Game:

Specs wanted: I will say when to sign off the account, and when to sign back on. Do not sign in until I give the green light.

Disclaimer:

There is always a chance at getting banned. Realize and understand that.

I am only one person with other people needing a recovery, do not expect me to drop everything I am doing to take care of your account.

*This thread is subject to change any time I want - I will update it regularly when I obtain new games that are in demand for modding.

This guy is really legit. He has recently done a GTA account for me, and believe me it is worth it. If your wondering about trusting this guy, he has my vouch.
