Thread: [Lucky Post Award](#)

Gravy Baby - December 5, 2016, 4:13 am

I haven't been on hf much but I'm seeing this new award called "Lucky Post"

Heaps of people have it and i cant find any consistencies with why they got it. Is it literally just a random award or? Just curious, lol.

SHAY - December 5, 2016, 4:14 am

You have to post "HQ" posts, aka posts over 100 char and then you have a chance of getting it.

Argue - December 5, 2016, 4:15 am

It's the clover award and you're able to get it by posting a post with 100 characters or more, but since there are lots of users who do this every 100 character post you make enters you into a draw to win the award.

Is that the definition of hq

ChaosComputerDude - December 5, 2016, 4:17 am

is there a fixed amount of gloves given away each day or is there any consistency besides the 100 char post count ?

Redwall - December 5, 2016, 4:18 am

I guess 100 character posts = High quality automatically.

I heard you can actually just quote people and it will count.

Not sure if that works or not.

But yeah that's pretty much how you get it.

Good luck mate.

Hash G. - December 5, 2016, 4:18 am

IIRC chances are like that:

Green Clover - 1 in 2000

Purple Clover - 1 in 12,500

Gold Clover - 1 in 50,000

No, didn't really mean HQ as in high quality, more like you have to put a little more time into your posts lol. My bad should've worded it better.

It worked in the beginning, not really sure if it works now.

To solve any of your inquiries, you should read Omni's thread. Link is down below:

<https://hackforums.net/showthread.php?tid=5291481>

There you can see what's included into clover award. Be sure to check that last page.

LastSession - December 5, 2016, 5:57 am

Heaps of people have it and i cant find any consistencies with why they got it. Is it literally just a random award or? Just curious, lol.I got my lucky post award thanks to defending myself at a thread for "leaking" personal information.

The user who created the main thread was accusing me of leaking personal information after attempting to scam me, which I defend myself against because OP was just being a sketchy scammer... and I got rewarded for with a lucky award ?

As far as my concern (what I remember) is that you have to have at least ... words (characters) at a post + being lucky.

Short posts don't count.

Joking man, I'm just jealous of your 2 lucky awards haha

All you need to know op is that these are your odds. You randomly get it by posting a 100+ character post. Also every time you post and don't it, your odds kind of reset if that makes sense. It's not the 2000th post on HF, but you have 1 in 2,000 everytime you post lol.

Or you can just quote a post like this ?

Mr.Peanut - December 5, 2016, 6:12 am

(Dec 5, 2016 07:09 AM)Muddy Waters Wrote: [\[CITE\]](#) Or you can just quote a post like this ? well what you typed isn't 100 characters is it? Quoting posts only gives you like 2 characters which isn't really much tbh.

Evanescent - December 5, 2016, 6:13 am

May the odds be in my favour to get the gold for this post.

BTW op just look at the thread created by omniscient. The new post when creating a thread doesn't count and even a edit.

Magna imperium - December 5, 2016, 6:13 am

Probably you did post a 100 char length post.

Since the system is automated, it checks if you've done the minimum criteria then checks if you have the clover already, then awards it.

Yeah,i meant chars.

Eagle 95 - December 5, 2016, 6:39 am

For those who don't have clover awards, if you want to feel bad just look at Omni's profile. Omni got a clover award by adding his canned speech - "This is a paid sticky..." ?

Squidward - December 5, 2016, 6:41 am
