Thread: [Custom Forum Groups taking time to load?](#)

Crystallize. - December 5, 2016, 2:20 pm

I don't know if it's just me or it's for everyone but custom forum groups takes quite a while to load and in phone it never loads.

Same happens for me, but only on the phone. It either takes a year to load, or it doesn't load at all.

Egregious Jr. - December 5, 2016, 2:34 pm

Yup, happens to me all the time.

EmilyJacobs - December 5, 2016, 2:35 pm

Pretty sure it has to do with loading groups member count, not for just you though.

Crystallize. - December 5, 2016, 3:15 pm

Yeah it's strange because in phone it doesn't even load at all and in PC it takes like quite a lot to fully load it.

Just bumping this so Omni can see and maybe give an official statement why is this happening and maybe he is not aware of this.

Regulus - December 5, 2016, 3:16 pm

This tab has always been kinda slow to be honest.

So it's nothing new.

minimalist - December 5, 2016, 3:17 pm

IIRC it's because the data is fetched on every page load, it's not cached.

Riyu - December 5, 2016, 3:18 pm

It's 10-15 seconds because it's counting members for each group.

Horizon - December 5, 2016, 3:18 pm

It took a good 15 seconds or so to load for me.

Ahh it makes sense now but maybe Omni can do it like "Click to see how many members this group have" so it loads faster? Just an idea it's always up to him ?

Well all clear now thank you a lot.

Closing this now.
