Thread: [Turn zip & rar to 7z files](#)

final kaoss - December 5, 2016, 4:57 pm

This one is quick & easy, what it does find all .zip and .rar files in the current directory, recompress them into 7zip files and delete the originals.

[Source](#)

Code @ECHO OFF

REM zip_to_7zip_automated_delete.bat - find all .zip and .rar files in the current directory, recompress them into 7zip files and delete the originals. Skip ones that don't decompress.

ECHO Searching for RAR and ZIP files to recompress into 7zip archives.

for %%F in (*.rar *.zip) do (

ECHO Found %%F to recompress...

REM Extract...

"C:\Program Files\7-Zip\7z" x "%%F" -o"%%F contents"

REM Does the directory exist? has 7zip created it correctly?

IF EXIST "%%F contents" (

REM Change directory, create 7zip of contents of directory...

CD "%%F contents"

"C:\Program Files\7-Zip\7z" a -t7z "../%%~nF.7z" * -mx=9 0=bcj2

1=LZMA2:d128m:pb2:lp0:lc4:fb175 2=LZMA2:d19:pb2:lp0:lc4:fb175

3=LZMA2:d19:pb2:lp0:lc4:fb175 b0:1 b0s1:2 b0s2:3

CD ..

REM Delete the old files

DEL "%%F" /F /Q

RMDIR "%%F contents" /S /Q

ECHO Recompressed %%F to %%~nF.7z and deleted %%F.

)

)

ECHO Search ended.

pause

Nice, make sure to have all the programs installed and path set correctly

ghose12 - December 8, 2016, 5:58 am

not working for me ...directory is correct but due to additional programs i think not working...lol

LlamaZombi - December 12, 2016, 10:32 pm

Very nice code ,

Can i chage it to tar to ?

Thanks for posting
