Thread: [iPhone 5 bypass lockscreen](#)

yeyeyeik - December 6, 2016, 1:49 am

Hello, i have an iPhone 5 that i wish to unlock without resetting it.

Is there a program or something that i can use to bypass this lock screen/passcode?

Codesss - December 6, 2016, 1:51 am

Not that I know of, but good luck homie

There's a few tutorials on Google if you haven't looked yet.

Are you referring to iCloud or just the passcode? If it is just the passcode I am able to help you.

The iPhone 5, has a lock symbol at the top, signalling that it has been locked. I used to be able to swipe up for the options or swipe down for notifications.

Now i can not, a phone without 3g/4g, no wifi. And i can't use siri..

I can see the lock screen though... any more idea's.

Appreciated.

The passcode to enter the phone.

moosa666 - December 6, 2016, 9:47 am

here u go

(Dec 6, 2016 10:47 AM)moosa666 Wrote: [\[CITE\]](#) here u gomy bad, it might just be that (the rotation lock), either way it won't allow me to look at the tool bar with a up swipe or the notification panel with a down swipe.

I can only use the passcode..

There used to be something for the older iPhone 3/3G/3GS/4 models to do this.

<http://www.cydiageeks.com/reset-passcode-gecko-iphone-toolkit-without-restore.html>

However, I don't recall Gecko iPhone Toolkit working for newer models though.

Exactly what i need ?

although it says 'iPhone 3Gs, iPhone 4, iPad 1, iPod Touch 3G, iPod touch 4G. Compatible with iOS 4.0 to 6.x.x.'

Know anything else for iPhone 5?

No and I believe xadamxk also did state that there was nothing for these devices at the time of their release, or at least when I asked about this because I had the same question / concern as you. Adam is the one to ask about anything iPhone related.

There is a link to his profile and he's online right now.

He said it was not possible. I'm now trying to reset the phone. I've cleared it but it is now iCloud Locked.

using 'officialiphonunlock' service to see if it worked. Has anyone here used this service before?

Will update if worked.
