Thread: [Festive Crypto Champion: MeshCollider](#)

Spoiler ([Click to View](#))[Video: <https://www.youtube.com/watch?v=bLKTx0JCHDw>]

I recently hosted a puzzle contest: <https://hackforums.net/showthread.php?tid=5475443>

It was proposed as an upgrade competition, though I knew Ub3rs may enjoy the challenge also.

Here's the prizes I offered:

Ronan. Wrote:The prize is dependent on your current user status:

Normal -> L33t

(Ub3r approved) : L33t -> Ub3r ? L33t -> Ep1c

(!Ep1c) : Ub3r-> Ep1c ? Ub3r -> Gift Award

If you're an Ep1c Ub3r with a gift award, then you don't get any awards/upgrades.

Instead I'll make a thread describing my approval of your technical ability, pay for it to be stickied as well as hand-drawing your username/avatar, framing it and attaching a photo of it at the top of the thread.

While I didn't think I'd end up creating this thread, here I am.

As promised, here is your prize, MeshCollider.

Congratulations on being the first user to crack the code; using a combination of lateral thinking, logical reasoning and Computer Science knowledge.

You established your technical prowess and made every obstacle in the way your bitch.

Now, sticking with the festive theme, someone needs to get this gift award so:

<https://hackforums.net/showthread.php?tid=5486978> Father MeshCollider will be selecting the winner.

Merry Christmas HF ?

Thank you very much again, Ronan. ?

This must be one of the best and most creative prizes I have ever seen on HF

It's nice of you making this a paid sticky.

I originally put it as a joke thinking it'd be too unlikely to happen; I'm a man of my word.

Mesh is the best, I'm going to get this stickied after I get all the group graphics and pay for the rebrand.

I honestly can't think of a better guy to win than Meshcollider. Congrats, buddy. I miss working with ya, even though I feel like you did a hell of a lot more for OMC than I did. <3
