Thread: [Ark: Survival Evolved Ps4 version Tribe Members](#)

Cletus Mcghee - December 7, 2016, 8:54 am

Looking for some people who want to join a tribe(have 4 people total at the moment)

We are playing on an EU server, on map: The Island.

I'm hopefully looking for some pc players that have also jumped to console version like I have. Chose the old map because I know a great spot to build and the locations close by for resources.

I'm pretty much looking for members that can help build up the tribe and base as well be in it for the long haul pretty much, so if you have a mic or headset and would be willing to jump servers or if you haven't started yet then pm me.

Cletus Mcghee - December 9, 2016, 4:44 pm

Still looking for more members! We have a total of 7 members so far, but need more for the base we are building is huge and takes all of our work to get there for future tribes that will come.

I messaged you. I'm currently play on a PVE and a PVP Scorched Earth Server. I could potentially transfer my character..

Hey, I'm very late here but are you still playing Ark?

I tried to PM but my account restrictions prevent me doing so. If you could maybe PM your Discord? Or somewhere else we could talk would be fantastic!

EDIT: I have no idea how I failed to quote OP, apologies I'm not an everyday forum user.

Quoting OP directly for his attention.

Sorry in advance if double posting like this is banned.
