Thread: [Bought 300 BTC from Blockchain, now transaction ID has dissapeared](#)

???? - December 8, 2016, 4:19 pm

So I bought bitcoin with blockchain for the amount of £300

It was put into manual review which is cool cause it's a fairly large transaction

now when I check the status it says:

Kinda worried. Already emailed them

Your title is very misleading. You should fix that bud.

Trappy - December 8, 2016, 4:21 pm

^ 300 BTC would make you a baller.

ama - December 8, 2016, 4:21 pm

At first I thought you purchased 300 actual bitcoins, I was like holy fuck.

However just wait for them to reply, should be resolved.

Damn, thugh you bought 300 bitcoins soo, 239k LMAOOO. You got professor finessed

Korvo - December 8, 2016, 4:50 pm

Maybe change the title to bought "300 dollars of btc" or something like that since you can't use the sign. I understand it's not your currency, but you could go into further detail in the post.

But anywho I'm sure they will get it resolved for you bro, just might take them a little time.
