Thread: [Official Group - Torque | Graphics Request \[\\$100 BTC/PP\]](#)

Cameron - December 8, 2016, 6:53 pm

Hi all,

I've just purchased a usergroup and I'm looking for a set of graphics as shown below.

Code What I'm after:

Userbar - 136 x 42 pixels(width & height)

Forum Icon - 40 x 40 pixels (width & height)

Animated & Non-animated thread header/thread spacers

I'd prefer the Userbar and Forum Icon were done first, and if I like it then I'll request the other graphics from you.

The group will be an automotive style group so if we could try to keep it along that theme it'd be good. One idea would be similar to the Red Lion design but instead of the lion you could use a turbo or something along those lines. Keep in mind that it doesn't have to be like that, that's just a suggestion and feel free to be creative!

The winner will be awarded with \$100 in either BTC or PP.

Thanks. :)

In this circumstance it's in relation to car power. When cars are dyno tuned it tests how much horsepower and Nm of torque the car has. So the userbar needs to be something car related.

With a car group, the obvious userbar is just a car, so here is a basic first submission to get the ball rolling:

Definitely not a bentley. Could be a Rolls Royce due to the grill, but I highly doubt it is due to the car looking more like a bug. And I would know considering my dad owns both a bug, a bentley, and a rolls royce ;)
